Program at Cemetery

Prayer ..... Rev. R. J. Currie
Address to Unknown Dead ..... Comrade Woodward
Presentation of New Grave Markers, Women's Relief Corps ..... Mrs. Minnie Kincaid
Response ..... Comrade Chamberlain
Song ..... Convent Pupils
Presentation of Flag Pole ..... Roy W. Cloud of Kiwanis Club
Response ..... Comrade Woodward
Salute over each grave, ...
Firing Squad, American Legion
Taps ..... Boy Scouts
Legion and Scouts return to I. O. O. F. hall.

MRS. M. GILBERT PASSES AWAY ON THURSDAY

Mrs. Mary E. Gilbert, for more than a year past a bedridden invalid at the home of her daughter, Mrs. Ella Leary, at 211 Bradford street, passed away Thursday morning.

The deceased was a native of Ohio, aged 71 years. She came to California at an early age and in the late '70s was married to Frank Gilbert, a prosperous pioneer farmer and millman, who passed away several years ago. Besides her daughter, she leaves two sons, Horace, residing in Merced county, and Allison, a contractor at Los Angeles. Seven grandchildren also survive her.

In her girlhood, Mrs. Gilbert, then Mary Wallom, lived with her parents in Bourbon, Indiana. While in that city she was the central figure of a happy incident, the memory of which had remained with her undimmed by the years. It was in connection with the Fourth of July celebration in 1863. Mary, then 8 years old, was the prize child vocalist of the town and to her was given the honor of singing the "Star Spangled Banner" in the presence of the patriotic celebrators among whom was no less a personage than Abraham Lincoln, the great Emancipator, then serving his first term as President. He was accompanied by General Sheridan and other notables.

When she came to the platform Lincoln arose and picking her up, carried her to his seat and held her on his knee while she rendered the song. Then affectionately he imprinted a kiss on her cheek, and handed her down to her parents. Mary was a proud girl, the envy of her schoolmates, and Lincoln was her hero from that hour until the end of her life.

The funeral will be held from the James Crowe undertaking parlors this afternoon at 2 o'clock Burial will be in Union cemetery.

"Oh, tell me not that they are dead, that generous host, that army of invisible heroes! Are they dead that yet speak louder than we can speak, and a more universal language? Are they dead that yet act? Are they dead that yet move upon society and inspire the people with noble motives and more heroic patriotism?

"Ye that mourn, let gladness mingle with your tears; he was your son, but now he is the nation's; he made your household bright, now his example inspires a thousand households; dear to his brothers and sisters, he is now brother to every generous youth in the land; before, he was narrowed, appropriated, shut up to you; now he is augmented, set free, and given to all; before he was yours, now he is ours; he has died to the family that he might live to the nation.

"O mother of lost children! Sit not in darkness, nor sorrow for those whom a nation honors. O mourners of the early dead! They shall live again, and live forever; your sorrows are our gladness; the nation lives because you gave it men that loved it better than their lives. And when the nation shall sit in unsullied garments of liberty, with justice upon her forehead, love in her eyes, and truth on her lips, she shall not forget those whose blood gave vital currents to her heart, and whose life given to her shall live with her life till time shall be no more.

"Every mountain and hill shall have its treasured name, every river shall keep some solemn title, every valley and every lake shall cherish its honored register; and, till the mountains are worn out and the rivers forget to flow, till the clouds are weary of replenishing springs and the springs forget to gush and the rills sing, shall their names be kept fresh with reverent honors which are inscribed upon the book of national remembrance."

—Henry Ward Beecher

Mt. Carmel Convent Holds Graduation

Graduation exercises of the Mt. Carmel academy were held Thursday of this week at the Sequoia theatre at which time 21 boys and girls were given diplomas from that institution.

Those graduating at this time were: John Morgan, Victor Nicoli, Louis Mangini, Tarsizio Fabbro, George Herm, Theo. Keyser, Peter Delbono, Frank Guinaosso and George McAuliffe, Redwood City; William Griffin of San Mateo; Marie Healy, Angela Cigluitti, Ana Borges, Patricia O'Brien, Enda Hecht, Lillian Ellis, Margaret Fabbro and Dorothy Dodd, Redwood City; Helen Nash, Maureen McMoyler, San Mateo.

The following program was prepared under the direction of the Sisters of the convent and presented by the children. It was much enjoyed by a large audience.

1. "God of Our Fathers."—School Chorus.
2. "Polanaise Joyeuse"
   1st Piano: Patricia O'Brien, Enda Hecht;
   2nd Piano: Lillian Ellis, Dorothy Dodd.
3. "Come Where the Lilies Bloom."—School Chorus.
   Piano, Germaine Ziemer
4. "Alpine Violet"—Piano Duet.
   Lois Curran and Annie Tonich
5. "The Little Waiters."—Girls of the 5th and 6th Grades.
   Piano, Kathleen Murphy
6. Play—"A Tender Attachment."—The Boy Graduates.
7. "Gondola Song" (Trio)—The Girl Graduates.
   Piano, Helen Nash
8. "A Fairy Went A Marketing"—Little Girls Chorus.
   Piano, Germaine Ziemer
9. "Play Make-Believe"—Vocal Solo—Maureen McMoyler.
   Piano, Helen Nash
10. "A Farmer's Life For Me."—Boys' Chorus.
    Piano, Germaine Ziemer
11. "Reverie"—Violin Solo—Joseph Judge
    Piano, Wm. Griffin
12. Recitation—"Sandalphon."
    Patricia O'Brien
13. "Finale-Valse"—Piano Duo.
    1st Piano, Maureen McMoyler; 2nd Piano, Helen Nash

GRADUATION HONORS AND ADDRESS TO GRADUATE

14. (a) "Star Spangled Banner"
    (b) "Loyalty Song"
    School Chorus

JUNE 4 CHOSEN AS DATE FOR CITIZENS' NIGHT

June 4th has been chosen as the date this year to hold Citizens' Night at Sequoia Union High School. This custom was started last year to show to the people of the high school district what the students of the various departments are accomplishing.

At 7:30 p. m. the public will assemble in the auditorium to hear a musical program by Otis M. Carrington's sight singing classes and the high school orchestra under the direction of Albert M. Heineman. These musical numbers will be followed by two -one-act plays presented by Mrs. Balcomb's dramatic class. Following this program, the visiting public will adjourn to the various parts of the main building and shops where exhibits will be held.

The art, history, science, English, mathematics, language, and business departments will all show evidence of work. The machine shop and wood shop boys will display their ability on rather a large scale; the domestic art girls will have a good showing of dresses; the art classes will display scarfs, drawings, linoleum cuts, and other work; the chart system will be described in the mathematics department; the English and journalism classes will hold discussions; the history department will hold a mock trial of the United States senate; and the physical education departments will show the system that is used to classify students.

The faculty committee in charge of Citizens' Night consists of C. L. Anderson, chairman; Miss Mary A. Ball, Miss Gladys Beeman, Miss Irene Bradley, Miss Mildred Proctor, Donald L. Bigie and Ferdinand Schraidt.

—o0o—

WOODSIDE

The Woodside Fire Department heard its first call for help on Saturday last when an alarm rang in from the house of Thomas Stewart, superintendent of the Jackling place. It proved to be only a burning chimney but the speed and gallantry of the department on this occasion added to the confidence that Woodside has in its fire-fighters.

Miss Dorothy Lewis, niece of Fire Chief Anton Davis, suffered serious burns on Tuesday while trying to use an alcohol stove with the working of which she was unfamiliar. Burning alcohol was thrown over the light summer dress she was wearing and in an instant she was ablaze and was very painfully burned before Mrs. Davis could extinguish the flames by wrapping a piece of carpet about her. She was taken at once to the Community Hospital, where she will be for about ten days. Only the prompt action of Mrs. Davis saved Miss Dorothy from serious if not fatal injury.

Mrs. aJmes Mackenzie entertained his employees and their families at a picnic and barbecue at the old Neuman place against the mountain side on Sunday last. About fifty guests partook of his hospitality. An elaborate array of food appeared upon the tables and those who were in a condition to permit exercise after the dinner, engaged in games and athletic contests during the afternoon.

The Woodside School engaged the Central Grammar School in a baseball game last Friday afternoon on the local school grounds. The score stood six to six when the game ended. The approach of darkness made it impossible to play additional innings to determine the winner.

Mr. and Mrs. Henry Jenkins spent the last week end at Santa Cruz.

The Menlo Country Club will celebrate the opening of the summer season on Saturday of this week. The reservation of tables has taxed the capacity of the club. Many of the Woodside members of the club are planning to bring their guests home with them after the celebration at the club house, for the rest of the week end.

James V. Neuman entertained a score of her friends at her home on Sunday night.

Mr. and Mrs. Oliver Dibble, Jr., have this week opened their home here for the summer season.

Ole Johnson, after many years residence in Redwood City, has returned to live in his old home in Woodside.

Joseph L. Ross, Jr., has just purchased a new Chrysler coach.

Miss May Huddart, superintendent of the local Sunday school, is planning the details of the annual Sunday school picnic to be held shortly.

The yearly picnic of the Sunday school of the First Congregational church of Redwood City was held at the old Tripp place in Woodside last Saturday.

BIDS FOR SEWER WORK REJECTED BY BOARD

All bids received at the previous meeting for the construction of sewers in Central Park were rejected by the board of trustees at a special meeting last Monday evening. Six bids had been received the lowest of which, that of George J. Fraties of Oakland for $22,139,22, was about $3,000 more than the estimate of the city engineer.

Fraties was represented at the meeting Monday by his attorney who offered evidence of the reliability and capability of the contractor. The board however, stated that it was on account of no doubt concerning the contractor that the bids were rejected, but merely because they wer all so much higher than the estimate of the city engineer.

A resolution was introduced by Trustee Dearborn and seconded by Trustee Thorning that the bids be rejected and instructing the city clerk to readvertise for bids on this piece of work.

—o0o—

PETITIONS FOR PERMIT TO ERECT GAS STATION

K. W. Heriford of Palo Alto peared in person before the board of trustees of this city Monday evening to request a permit to erect a gas station on the corner of Washington and Webster streets. Julius Smith, agent for the land upon which Heriford desires to build, was also present and stated to the board that he had interviewed adjoining property owners and that none had objected to the erection of the service station.

The board laid the matter over for a week and told Heriford that the board had no objection to the proposed station, and that if none of the property owners immediately connected with the locality filed objections, that the permit would be granted.

—o0o—

FATHER KENNEDY TO LEAVE FOR CONVENTION

Rev. C. E. Kennedy, pastor of Mt. Carmel Catholic church, who was elected recently as a delegat for the local Kiwanis club to the Kiwanis International convention to be held in Montreal, Canada, next week will leave tomorrow for Canada. He will be accompanied on his trip by Father John Roberts of San Mateo, who was elected to represent his club at the same convention.

The two priests will visit enroute at Portland, Oregon, and at Vancouver, B. C., where the Harding Memorial was erected by the Kiwanians of this country and Canada to celebrate the long period of peace between the two countries.

Following the convention the two men will attend the Sequi-Centenial Exposition at Philadelphia, and will attend the graduation ercises at the college in Baltimore, from which Father Gennedy was graduated. They will then attend the Eucheristic conference being held in Chicago by the Knights of Columbus and will visit Niagra Falls and the Grand Canyon.

FRIENDLY DISPUTE ENDS IN JAIL HERE

A little differende of opinion between Boythe McCaully and Jack Moffatt, two laborers from Menlo Park, caused the two to be quartered temporarily at the county jail. The two were brought to the jail here early yesterday morning by Constable Frank Roach of Menlo Park and Policeman Joe Feliz of Atherton. McCaully is charged with battery and Moffatt with being drunk.

Their appearance upon being brought to the jail was, as Deputy Sheriff Joe Meeks expressed it, "like they had been through a sausage machine."

—o0o—

KIWANIANS HEAR TALK ON COUNTY FINANCES

Ambrose McSweeney, tax collector of San Mateo county, was the speaker at the weekly meeting of the Kiwanis club at the Fox Shoppe Wednesday. His subject was "How San Mateo County Gets Its Money." The subject was an interesting one and was well presented by the speaker.

The chairman of Wednesday's meeting was Henry Steinberger, who while not a tax collector, showed his ability to collect money by enriching the charity fund of the club by several dollars.

—o0o—

BUILDING ACTIVITY IN WELLESLY PARK

Building permits issued by Building Inspector C. Drathman indicate an increased activity in building operations, especially n Wellesley Park. Permits recently issued include one by W. F. Klay, who will construct a six-room house at 262 Edgewood road for Mrs. Susan M. Doolittle. The contract is for $6900.

W. P. Goodenough has secured two permits, one for a two-story residence on Blanford boulevard for D. W. Brewer at $15,415; the other for himself at Durlston road at $14,801.

A ermit was issued to S. E. Briscoe who will build a home at 1234 Whipple avenue for $6,000.

Harry Arnold has secured a permit and has started the construction of a re-enforced concete business building for Earl Rush on his property at 415 Maple street.

—o0o—

SEEK FUNDS TO IMPROVE BAPTIST CHURCH HERE

A campaign to raise $3000 for the improvement of the local Baptist church was started this week by members of the Baptistcongregation. It is planned to expend the money raised in repainting and refinishing the present building, raising it and constructing a concrete basement under it. This basement will be fitted out for use of the Boy Scouts and other organiations.

—o0o—

SEEKS DIVORCE

John E. Owen has brought an action in the Superior court for an interlocutory decree of divorce against his wife, Dorothy Owen, on the ground of desertion. The couple were married at Oakland on December 11, 1920. They have no property but they have a minor child whose custody plaintiff seeks.

CITY BRIEFS

The committee in charge of the Memorial Day exercises earnestly request all residents who have flowers to kindly donate some for the decoration of soldiers' graves They may be left in I. O. O. F. hall on Monday morning.

The local chapter of the Fraternal Aid Union will hold a card party on Tuesday evening, June 8. Fine prizes have been secured, and a good time is promised. Miss Eva Locker is chairman of the committee in charge.

Pearl Beer, Alberta Choate and Bessie Payne, students in the San Jose Teachers' College from this city, participated in the production of "The Nightingale and the Rose" stage by the college in connection with the Fiesta de las Rosas last Saturday.

A party of young folks from this city spent Sunday in Santa Cruz enjoying the sea breezes of the coastside city. Those who enjoyed the occasion were the Misses Bessie Payne, Pearl Beer and Eva Locker, and Fred Taylor, Walter Williams and Terrance Hogan.

Mrs. J. Hendry and her son, Ray Hendry and grandson, Bobbie Phillips arrived from Salt Lake last week for a visit with Mrs. Hendry's daughter and son-in-law, Mr. and Mrs. William Clark of Phelps street. Mr. Hendry returned this week to Salt Lake City, where he manager of a large Theatre.

Belton Rhodes, the popular abstract expert, is enjoying a vacation of a month in Placer county.

Earl E. Higgins, who recently resigned as secretary of the California Pacific Title Insurance Co., has been employed by the George H. Rice Abstract Company. Mr. Higgins is one of the best title insurance men in the state.

Mrs. Lila Kirkpatrick is planning to leave next week for Portland, Oregon, where she will spend the summer.

Rev. C. H. Parker of the local Baptist church will leave soon for a tour of the east.

A. McSweeny this week sold to San Francisco investors a lot on Oak avenue and the state highway for $10,000. The lot is 100 by 117 feet. It is adjacent to the new chicken cannery now being completed and is very valuable property. Mr. McSweney and his associates made a neat profit on the sale.

All members of the Ladies Aid of the Methodist church are requested to be present at an important meeting to be held in the church parlors Wednesday afternoon at 2 o'clock.

Mrs. John Johnson of Hamilton street is enjoying a visit from her mother, Mrs. Olson of Ogden, Utah

Mrs. John Hall of Pine street spent Wednesday with her mother, Mrs. A. Baldwin in San Francisco.

J. C. Williamson of Pescadero was a business visitor in town on Thursday.

A good attendance was present at the regular bi-weekly dinner of the Methodist church Wednesday evening. This was the second affair of this kind to be held by the local church, and the results have been very encouraging.

H. C. Griffith, well-known newspaper man of the coastside, was a visitor in town Thursday.

Harvey Sarter of Los Angeles, visted at the home of his sister, Mrs. A. A. Arends of Wellesley Park on Sunday.

Mrs. Lida Ruth Medefind is spending her vacation at Monterey with her sister, Mrs. Robert Place.

Miss Sallie Nelson entertained the members of her sewing club at her home on Jefferson avenue, Wednesday evening. Her guests were the Mesdames John Poole, George Hopkins, Zoe Thorpe, and Sarah Poole.

Miss Adelina Hall spent the week-end in Redwood City with her parents. Miss Hall is completing her first term of teaching school and it has been a very successful year.

Mrs. Julia McNulty of San Francisco spent the week with her son, George McNulty and family of this city was present at his birthday yesterday.

Mrs. Rundell Chapmen left this week with her two children for a visit to her old home in England. Mrs. Chapman will be away for about four months.

About two hundred of the children of the Congregational Sunday school enjoyed the picnic held last aSturday at the Addie Tripp Place at Woodside.

A number of local members of the Fraternal Order of Eagles are planning to attend the convention to be held in Yosemite Valley on June 8th.

John Layng was called to Berkeley Wednesday by the death there of his uncle, John Hinkel.

C. M. Doxsee will be the speaker at the next meeting of the Redwood City Kiwanis Club, his subject will be, "When I Can Read My Title Clear."

LOCAL EXCHANGE CLUB TO MEET WITH SAN JOSE CLUB

Wm. P. Hogan was chairman of Tuesday evening's meeting of the Exchange Club at the Fox Shoppe. It is needless to say that Bill made good and a very enjoyable meeting held. He is sergeant-at-arms of the local club and his experience in that capacity stood him in good stead Tuesday evening. The local club is planning to meet with the San Jose Club next Tuesday evening, when the National President will be with the San Jose Club at at the Garden City.

WILLIAM A. O'BRIEN DELIVERS VALEDICTORY

William A. O'Brien, elder son of Mr. and Mrs. W. J. O'Brien of this city, graduated with high honors Wednesday evening from the law school of St. Ignatius College. The young man was the higheat ranking student in his class and was chosen to deliver the valedictory address Wednesday evening. This was written and delivered by himself, and for it he received high commendation from the faculty and from his classmates.

On Thursday evening the graduating class and the faculty of the college met at the Clift hotel for a banquet and O'Brien was chosen chairman of the evening. He is an unusually bright young man and his entire college career has been one of high achievement.

SEN SENTENCE ON RUM CHARGE

Andrew Odetta was sentenced to nd 250 days in the county jail ay a fine of $500 when he ap- red before City Recorder Al- t Mansfield of this city Tues- He was charged with manu- ture and possession of liquor in ation of the Wright Act.

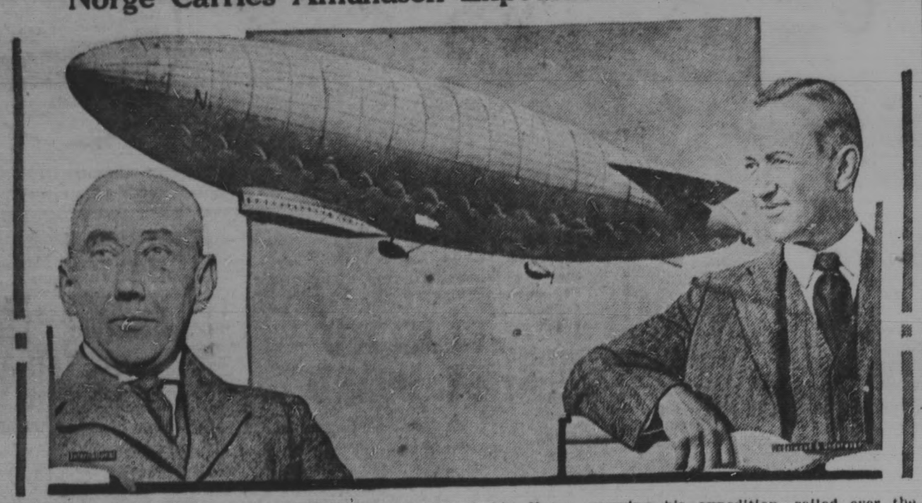
Norge Carries Amundsen Expedition Over the Pole



Wireless messages from Captain Amundsen said the airship Norge, carrying his expedition, sailed over the North pole at 1 a. m., Wednesday, May 12, Norwegian time. Next day it reached Alaska. Our illustration shows the Norge with Captain Amundsen (left) and Lincoln Ellsworth (right), his American companion.

Tear Gas Used in Hunt of Escaped Convict

When it was reported that James Price, one of the seven convicts who escaped from the Illinois penitentiary at Stateville, was hiding in a cave near Ottawa the sheriff of La Salle county and his posse drenched the cavern with tear gas before venturing within it. The man was not found there, however.

President Gets His Buddy Poppy

President Coolidge received the first "Buddy Poppy" from the hands of little Beverly Moffett, daughter of Rear Admiral William A. Moffett, in the presence of officers of the Veterans of Foreign Wars, who are sponsoring the sale of the poppies for the veterans' benefit.

MRS ELLA HAMLIN

Mrs. Ella Bushnell Hamlin, Davenport, Iowa, who has announced her candidacy for congress from the Second district of that state. Her platform is of a radical nature and is attracting national attention. Mrs. Hamlin says: "I am in favor of eliminating the sex line and abolishing all of the women's clubs. The women themselves are raising up barriers between women and men. If the women are desirous of entering politics, let them go in with the men. I am utterly opposed to the idea of the United States joining the League of Nations and the World court. I am in favor of developing our internal waterways to the limit." Mrs. Smith is a journalist.

In Memory of Founder of Esperanto

Scene at the unveiling in Warsaw, Poland, of a memorial to Dr. Ludovic Zamenhof, the founder of Esperanto, which he hoped to make the universal language.

HOST OF PRESIDENT

It is announced in Washington that the summer White House will be located on Rainbow lake, near the village of Gabriels, N. Y., in the heart of the Adirondacks. The camp which the President will occupy is a part of the immense estate in the fir, pine and birch woods owned by Irwin R. Kirkwood, Kansas City publisher, shown above.

Powerful Flame

The oxy-acetylene flame is capable of producing a temperature in the neighborhood of 6,000 degrees Fahrenheit, the highest temperature that is produced outside of the electric arc. The figure has not been definitely established.

More'n Enough Words Now

There is a great rush of new words for inclusion in the dictionary, but silent men retain their popularity in public life.—New York Sun.

SHORT ITEMS OF INTEREST

There are 174,347 one-teacher schools in the United States.

There are 16 women in Illinois running for nominations for the lower house of the state legislature.

Miss Eva Brunelli is the first woman in France to wield a conductor's baton over a symphony orchestra.

Miss Rosamond Parma of the University of California is one of the few women law instructors in the country.

A cable railway is to be built up Mount Fuji in Japan.

It is said that the chickadee will devour 450 eggs of plant lice in a day.

Transferring wheat directly into dough without a milling process has been accomplished in France.

Flamingoes in South America are rapidly decreasing because Indians rob the nests and sell the eggs for food.

MIDSUMMER AFTERNOON FROCKS; PARIS SENDS EVENING GOWNS

MIDSUMMER is just ahead of us now, bringing the closing chapter of the season's style story. Reviewing what has gone before, it is plain that the mode took femininity as its inspiration and gave free rein to fancy. All sorts of furbelows are approved and afternoon gowns have gone through so many variations that there is only one experiment left for them to try. This is a development in the direction of simplicity. It is a welcome departure for midsummer but is only comparative simplicity at that—what with scarves, ties, capes, bows, plaits and other accessories of new gowns.

All's well that ends well, and here are two late arrivals among handsome

SIMPLICITY IS THEIR KEYNOTE

afternoon gowns that show what a happy ending summer brings to the story of the mode. They are simple, cool and very dignified versions of correct style. Black and white printed silk makes the charming model at the left, with wide jabot and cuffs of white georgette. A flat bow tie with very long ends is one unexpected finishing touch at the neck and the plain standing collar has a band of georgette at the top.

Plain crepe in two colors is used for the matronly model at the right, which accents the growing favor shown to a higher waistline and the bloused bodice. Small, flat buttons, covered with crepe like the dress, are used for decoration and they are featured and the beaded models continue to be popular. The uneven hemline is accomplished in many ways, the latest being the dip at the back, where the skirt is sometimes as much as twelve inches longer than it is in front. As for the silhouette, it is varied all the way from the slender, straight lines of bead-embroidered gowns to the very bouffant skirt of the period frock, which is usually developed in taffeta silk. Laces, including dyed and metallic varieties, and many flowers are important items among things used for adornments.

In the two models from Paris, shown in the sketch, green and gold combinations are presented. The simply designed gown at the left,

TWO LOVELY EVENING GOWNS

placed on the belt, above the plaits in the skirt and at the joining of dark and light crepe in the ties. Both gowns have long sleeves and emphasize a blouse waistline at the back and the approved skirt length. Either of them can be developed in whatever colors are most becoming, but there is nothing more chic than the black and white printed silks for midsummer. Navy blue and tan, or navy and American Beauty are modish color combinations, but there are many others that will suggest themselves for the crepe gown.

The fairy god-mother of the mode—who resides in and about Paris—made of light-green crepe and gold lace, reveals its up-to-dateness in its scalloped skirt with backward dip and slightly bloused bodice. An equally successful model, at the right, is of green chiffon with embroidery of gold paillettes and a soft girdle of the chiffon. Green is one of the most popular colors for evening, but has many lovely rivals, as pink, geranium red, flame, hyacinth blue and mauve. White is well represented in this colorful company and black grows in favor as summer advances.

JULIA BOTTOMLEY.

(©, 1926, Western Newspaper Union.)

Hats of Felt

The small hat continues to hold its own, and no wonder, with the manufacturers turning out more charming models every day. A window filled with small felt hats in a delightful shade of apple green was the object of much admiring comment recently.

Ties That Do Not Bind

Ties are a feature of many of the new blouses worn with spring suits. Some of them are as narrow as the black string ties formerly affected by old-time politicians, while some are broad. They are usually of taffeta, toile de soie, crepe or chiffon. Sometimes they are voluminous enough to be scarfs. In that case they are attached to the neck line of the frock and tied lightly in front.

Pearl Necklaces

Pearl necklaces are being worn tight about the neck and knotted at the rear with the strands falling half way down the back. This, of course, is an evening fad.

U. S. DOCUMENTS EAGERLY SOUGHT

Public Purchases 7,770,782 Government Publications in a Year.

Washington.—The document division of the government printing office, which, under the superintendent of documents, has charge of the distribution and sale of nearly all government publications, except those allotted to members of congress, last year made sales amounting to $487,922.63, an increase of $47,017.70 over the preceding year, and $194,551 more than for the fiscal year 1921, according to George H. Carter, United States public printer.

In the fiscal year 1925 the document division sold 7,770,782 copies of various government publications, an increase of 526,041 over the sales for 1924. Most of these publications were ordered by letters, of which 375,571 were received during the year. A large number also were sold over the counter of the government bookstore on the ground floor of the Document building.

The increasing sale of government publications is especially noteworthy, says Mr. Carter, in view of the fact that the office has no funds for advertising its products and has to compete with free distribution by members of congress and other officers of the government.

The sale of government publications could be greatly increased, declares Mr. Carter, by ending the present wasteful method of free distribution which cannot supply all the demands and is therefore of benefit only to comparatively few persons. The charge for government publications, it is pointed out, is nominal, based upon reprint cost, plus 10 per cent. With this low cost no real reason is seen by the public printer why the distribution of practically all government publications should not be put on a sales basis and every one thus given equal consideration in the supply of public documents.

Would Help Pay for Printing.

"Increased sales would, of course, help compensate the government for the cost of printing," the report continues, "but a material growth in sales, unless accompanied by a reduction of the free copies, would necessitate an additional force and a larger building for the document division, which is already seriously overcrowded. Therefore, any plan for the increased sale and distribution of government publications should, of necessity, take into consideration additional facilities and larger quarters for the document division.

"During the fiscal year 1925 the document division distributed 54,084,458 copies of publications. About 7,000,000 of these copies were purchased by the public. The distribution was made in 21,372,292 packages, filling 139,155 mail sacks. Periodical distribution for the various department and subscription lists requires the handling of 1,235 mailing lists containing approximately 835,000 names. From these mailing lists 22,712,964 machine-stencil impressions were made during the year.

"In order to meet the demand for government publications the document division has to carry a regular stock of fully 30,000,000 copies, including almost every publication issued by the government in the last half century. During the year the superintendent of documents received and stored 55,138,327 copies of the products of the government printing office.

"Not all of the copies printed annually ever reach the public. During the year 2,645,537 obsolete and useless copies, which had been ordered by the departments in former years, had to be disposed of as waste paper. Millions more of government publications will have to be consigned to the scrap heap year after year, if the present excess printing for free distribution continues and no additional space is provided for their storage.

"The superintendent of documents also conducts an extensive information service concerning government publications. Last year his office received and answered 161,852 letters of inquiry and aided several thousand other inquiring persons who visited the office. The fact that the document division possesses a remarkable library of government publications, consisting of 375,000 books, pamphlets and maps, for which there is a complete reference catalogue, makes it possible to furnish information which could not be obtained as readily and accurately from any other source.

Better Library Service.

"Better service is being rendered the depository libraries than ever before, as indicated by the increasing number of libraries that have found it advantageous to secure congressional designation as depositories of government publications. By the new law allowing depositories to select the class of publications to be furnished by the government, the depository libraries have been relieved of the unbearable burden heretofore imposed in having to receive and store copies of every publication printed by the government.

"Under the selection plan only 59 of the designated depository libraries elected to take copies of all government publications; 230 libraries receive more than 50 per cent of the list, and 173 of the smaller libraries less than 50 per cent, or only the publications of special interest to their patrons. This plan has effected a saving in the printing of thousands of publications, which heretofore the libraries had to discard after a time owing to lack of space or usefulness.

"Another agreeable service to the depository libraries is the immediate delivery of all congressional documents and reports that are of sufficient size to be bound separately. Formerly it was necessary to hold all these publications until after the close of a session of congress so that they could be bound in sets. Many publications of congress were obsolete or useless before they were sent to the libraries. The more prompt delivery was made possible through the co-operation of the joint committee on printing in adopting the new method of distribution as proposed by this office."

Many obstacles are encountered by the document division which are unknown to most mail-order houses, it is pointed out by the superintendent of documents. The question of stock is always an uncertain quantity, he states, since, as a general rule very little information is had on which to base requirements. Publicity from unanticipated sources often exhausts the supply and aside from creating delays while reprints are made, if the publication was run from type and not plated, refunds have to be made. During the last fiscal year, he reports, $10,631.11 was returned, representing either overpayments or supply exhausted.

Would Facilitate Payments.

"The adoption by the government of a legal tender of small amounts along the line of the Canadian postal note would be a great convenience, not only for the public in ordering government publications, but for any one patronizing a mail-order house where small remittances are involved," declares the superintendent in his report to the public printer.

"Although we advertise that postage stamps will not be accepted, last year more than $12,000 worth were received as remittances. If we could not find an outlet for these stamps it would be necessary to return them as nonacceptable for the reason that they cannot be converted into cash. Fortunately our foreign business has grown to such an extent that we were able to use all of them. I am convinced that advertising of stamps as nonacceptable keeps a great many people from ordering publications, when the remittance is a small amount, because they consider it is too much trouble to obtain a money order.

"The generous policy of the United States government in its free distribution of publications has no doubt served to depreciate their value. Those opposed to a restricted free distribution might be interested in knowing that Great Britain since the war has discontinued even its prewar limited free distribution, and now all libraries have to purchase their copies.

"The British government, recognizing the value of its publications, in 1887 passed a resolution permitting the reprinting of information contained in a majority of them. The policy is similar to ours, in that we do not allow copyrighting. The two countries also entertain similar views in their practice of charging the prime cost to the government, so that the public may purchase at a nominal cost for paper, presswork and binding."

Havoc Was Extensive in Krupp Dismantling

London.—Remarkable figures showing the havoc wrought at the Krupp works under the direction of the interally control commission are given in the report presented at the annual meeting of the company, says a Berlin correspondent.

The machines destroyed numbered 9,300 and had a total weight of about 60,000 tons. The dies and tools sacrificed reached the prodigious total of 801,420, their aggregate weight being 9,588 tons.

Further, 379 presses, tempering furnaces, oil and water tanks, cooling plants and overhead travelers were scrapped on the commission demands. On the testing grounds 159 experimental guns and 1,100 tons of ammunition were destroyed. The replacement value of all this property is estimated at about 104,000,000 marks.

The report mentions that the concern is now permitted to make annually not more than four guns above seventeen inches.

Maiden's Modesty Halts Sword Duel With Man

Budapest.—A maiden's modesty has been the cause for the cancellation of a duel with swords between the girl and a man.

Because of what she regarded as unjust criticism of girls in a fencing school, the girl, eighteen years old, sent her seconds to the young man. He accepted the challenge.

The man appeared on the dueling grounds. When the maid arrived his seconds insisted that she should comply with the rules. The girl refused, and the man's seconds then declared the duel could not be fought.

Pinch Hitter

London.—If a pinch hitter is needed on the royal ball team, American hotel men are for the duke of York. Subbing for the prince of Wales, who is treating a convalescent ear by playing golf at Biarritz, the duke told the visitors to stimulate the spirit of travel and make the world happier.

Master's Definition

Painting, with all its technicalities, difficulties and peculiar ends, is nothing but a noble and expressive language, invaluable as the vehicle of thought, but by itself nothing.—Ruskin.

High and Low German

High German is so-called because it is spoken in the hilly and mountainous midland and southern districts. Low German is spoken in the low and level northern sections.

Not Lasting Pleasure

The roses of pleasure seldom last long enough to adorn the brow of him who plucks them; for they are only roses which do not retain their sweetness after they have lost their beauty.—More.

Bees Attracted by Color

The supposition is that bees are attracted to flowers primarily by their odor, but the color does have a certain attraction. Blue, for instance, will attract bees most readily.

RULER OF BARODA, SON OF HERDSMAN

Maharajah Gaekwar Has Governed Indian State for 50 Years.

Washington.—The gaekwar of Baroda has achieved a record. He has sat upon his throne for 50 years, an unusual term among Indian rulers in recent centuries. Therefore, Baroda has had a jubilee, climaxed by a great state dinner at which the important citizens of Baroda sat cross-legged on the floor of the palace audience hall with eastern viands before them, while the maharajah gaekwar sat alone at a table in a chair of state. The state over which the oddly titled ruler has presided for half a century is described in a bulletin from the Washington (D. C.) headquarters of the National Geographic society.

"Islands" on Dry Land.

"Baroda, one of the wealthiest of the Indian native states, is a group of 'islands' on dry land," says the bulletin. "Only prewar Prussia had more scattered dominions. There are four main divisions, but about each of the larger regions cluster small districts, and even separate villages that fairly pepper the territory of the Bombay presidency of British India, in which the gaekwar's 'islands' lie. There is probably a separate fragment of Barodan territory for each of the 50 years the gaekwar has ruled.

"The territories, which total 8,000 square miles, begin near the west coast of India, 150 miles north of Bombay city, and extend for 200 miles to the north. Other fragments are scattered off to the west on the Kathiwar peninsula, the most remote being 225 miles from Baroda City, the capital.

"Most of the state is level alluvium in a high state of cultivation. This is especially true of the region lying to the north of the capital. With its fields, well ordered hedges, and groves of trees, this section has much the appearance of English park land. Some of India's best cotton land is in Baroda, and the state has 25 gins and a cotton mill. Rice and wheat are raised, and a considerable area is devoted to poppy growing for the making of opium. Growers of poppy are licensed, and the handling of opium is a state monopoly.

"Baroda City has a population of 103,000. There, and in the vicinity, are the palaces of the gaekwar. The white stucco palace of Nazar Bagh is notable chiefly as the Barodan strong box. In it are stored the gaekwar's jewels, said to be worth $10,000,000. Among them is one of the world's famous diamonds, 'the Star of the South,' of 125 karats. Another unit of the collection is a cloth embroidered with precious stones and seed pearls. This was prepared for a Mohammedan ruler and was meant as a cover for the tomb of Mohammed.

"Four miles south of the city is the Makapura palace, the country place of the gaekwar. It is noted for its fine gardens, fountains, grottoes, and pergolas. The chief of the ruler's residences is the Lakshmi Vilas. In it is a huge Darbar hall around which are covered and screened wooden galleries from which the women of the gaekwar's menage may observe state functions without being seen.

"Leading off the main street of Baroda City are numerous 'wards,' each set aside for a separate caste or class. These are culs de sac, and across their entrances are heavy gates. In certain sections of the town English influences are noticeable. Baroda college has its cricket grounds, its tennis courts, and its gymnasium. Baroda spends more on public education than any other native state, maintaining public schools for both boys and girls. There are even zenana classes for adult women who must remain in seclusion.

From Hut to Palace.

"The 2,500,000 inhabitants of Baroda belong predominantly to the Hindu faith, and the pinnacles of numerous Hindu temples pierce the skyline of the capital. The minority religions are not molested, and the gaekwar, in fact, patronizes one of the chief Mohammedan festivals.

"The life of the present gaekwar has been like that of the hero of a fairy tale. In 1875 the ruler of Baroda was accused of attempting to poison the British resident, and was deposed. He had no heir, so a search was made by the British government for a collateral relative. A young lad, the son of a humble herdsman, was chosen and was placed on the throne in 1876. It is he who is the present gaekwar.

"Baroda is important as well as wealthy. The gaekwar is one of only five Indian rulers entitled to receive a salute of 21 guns anywhere in India."

Daylight-Saving Plan Proves Old, Old Stuff

Dublin.—The adoption of summer time (daylight-saving time) is no novelty, but only a reversion in a modified form to a custom that existed for thousands of years prior to the Twelfth century A. D., according to the dean of St. Patrick's cathedral here.

An Irish sun dial of the Sixth century recently discovered in County Down and another in County Kerry confirm conclusions to that effect drawn from the Gezer dial in Palestine. The hour varied in length according to the season and latitude, the daylight hour in Ireland being in midsummer 80 minutes and decreasing in winter to 40.

Of Mixed Composition

German or nickel silver in the best grade is 46 per cent copper, 34 per cent zinc, 20 per cent nickel. For common ware it is 55 per cent copper, 25 per cent zinc, 20 per cent nickel.

Philosophy

Train yourself to find the good in what seems evil to make of disaster an opportunity for your courage, to master suffering by patience, to learn from sorrow sympathy.—Merriam.

SUGGESTS HOW TO FIND SAFETY DURING TORNADO

Southwest Corner of the Basement About the Best Shelter When Twister Is Approaching.

Harrisburg, Ill.—While no place in the path of a tornado is safe, as a rule a person is safer inside a building than outside.

Scientists attending the annual meeting of the Illinois State Academy of Science here were told this by Prof. Frank H. Colyer of the Southern Illinois State Normal university. The data by Professor Colyer was compiled after a close study of the tri-state tornado, which swept through Missouri, Illinois and Indiana.

"A person is safer in some building," he said, "because the air is literally full of violently whirling missiles of various kinds. Many of these are splintered timbers from destroyed buildings that may at any moment be thrust through the body.

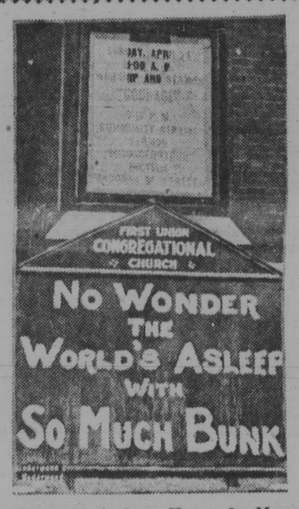
"In other cases a person may be struck by the rapid movements of any kind of debris in the air. In case the building has a basement, the southwest corner of this basement is generally a safer place to be than the rooms above the ground, in this case, however, one should keep away from the stove or furnace with a fire in it. A number of persons were burned to death while pinned beneath fallen debris which were near a furnace or stove.

"If there is a room with a strong box, steel bed, or exceptionally strong table, it is well to lie flat on the floor near such an object, for it will often hold up a fallen ceiling or roof sufficient to save a person from being crushed. Many people came out of completely wrecked buildings, because they had presence of mind enough to place themselves in such a position.

Sometimes hallways, where the walls are near together may be safer than large rooms, where there is nothing to break the force of a falling roof or ceiling.

"If a person sees the funnel-shaped cloud of a tornado at a considerable distance he may drive an auto, or a pedestrian may run fast enough to escape. In that case it is better to run, or drive, northward, since the center of the destructive path northward is less than from the center to the south."

Startles Community With Snappy Church Signs



Every week Rev. Harry L. Meyer of Quincy, Ill., pastor of the First Congregational church, startles the community with a snappy sign which he displays upon a large bill board in front of that edifice. This picture shows one of his latest efforts.

Miner's Search for Watch After Cave-in Saves Life

Iron River, Mich.—Felix Normantowitch is proud of his fine gold watch, and he was rewarded for the care he gave it. It saved his life in a cave-in which caused the death of another man. The cave-in occurred in the Forbes mine here. Normantowich and Matt Cornowiski heard a roar of sliding earth and a puff of air told them that the mine walls had fallen. They rushed to the shaft, but Normantowitch went back for his watch, left on a timber. A moment later a timber fell, killing Cornowiski where Normantowitch had stood. After being imprisoned for 30 hours, Normantowitch was rescued. He and his watch were safe.

Indian "Gobbled," So He Shot—Murder Defense

Okmulgee, Okla.—Imitation of a turkey gobbler's call, Indian signal of intent to kill, forms the basis of the defense in a murder trial here. Jim Crowell, a wealthy rancher, charged with shooting Willie Brunner, an Indian, testified he shot Brunner after the Indian had "gobbled" three times and then attempted to shoot him. The defense recalled a decision by Judge Parker, Indian territory jurist, who regarded as justifiable homicide the act of a man in shooting an Indian who "gobbled" at him.

Bad Table Manners

Jersey City, N. J.—Marie Yvonne Mourot Hart, who ate with her knife, has been divorced from her husband, who objected to what he said was her refusal to adopt American customs.

Embarrassing Moment

We are inclined to believe the cynic who declared that no woman is beautiful when feeding must have seen one when a cream puff exploded as she bit it.—New Orleans States.

Not a Bad Idea

"Here's an instructor teaches school faithfully for 40 years." "Let's make a scare head of that for a change," suggested the New York publisher.—Louisville Courier-Journal.

Golden State
News of Interest to All

The Seely section has the distinction of being first in the market in Imperial valley with tomatoes for the season of 1926, having sent out a crate on April 5.

The cornerstone of Sacramento's new memorial auditorium, now under construction was laid with colorful ceremonies recently by the California Grand Lodge of Masons.

At least a ten per cent reduction in insurance rates will be given grain farmers in the Oakdale district, Stanislaus county, because of the fire protection, afforded by the rural fire truck.

With a normal run off of water in June, the Oakdale and South San Joaquin irrigation districts will get storage this season, says the consulting engineer on the Melones reservoir project.

During the month of April the city clerk of Petaluma, issued building permits totaling $165,050, which is a record for the city. The largest permit was for St. Vincent's church for $130,000.

Forty thousand persons, half of whom were visitors, milled through the streets of Bakersfield recently inoculated with the gala spirit of Kern county's second annual "Cotton is King" festival.

Approval has been given the $2,000,000 power project of the Glenn-Colusa irrigation district, near Hamilton City, Glenn county, by the chief engineer of the district, according to recent announcements.

With a view to expediting the shipping and icing of eastbound fruit this season, the Southern Pacific company has decided to increase its trackage, platforms and other facilities in the vicinity of Roseville.

A shortage of fruit hands in the Sacramento valley already this season has made itself manifest in many districts. This is according to Andrew G. Anderson, bureau manager of the state employment service office.

California leads the nation in forest conservation matters, according to a report presented to directors of the California Development association at a two-day statewide conference held in San Francisco recently.

Hemet valley is preparing to harvest one of the largest apricot crops in its history. The trees are loaded with fruit and it is probable that the valley's previous high-crop total of 14,000 tons will be exceeded this year.

The use of narcotic drugs in California, is on the decline according to the belief expressed in Sacramento by Harry D. Smith, United States agent in charge of all narcotic law enforcement work in California, Nevada and Arizona.

That the new $70,000 parochial school of St. Marys, at Taft, will be completed in plenty of time to start school September 1, was the statement made by Rev. James P. Buckley, who has been in charge of St. Marys Catholic church in Taft since 1918.

Mrs. Mary Brooks of Sacramento, member of the first graduating class of the College of the Pacific—class of '53—will be in Stockton for the seventy-fifth anniversary of the institution, which will be celebrated during commencement week, June 13 to 15.

According to a government crop report issued on February 1, the Imperial irrigation district, at El Centro, contains 380,611 acres under cultivation, 155,080 of which is planted to alfalfa. Despite the success attained in vegetable and cotton growing here, dairying still remains the basic industry of valley ranchers, because of the fact that alfalfa does so well here.

The San Fernando valley agriculture club field crop contest is on, and thirty-five boys are doing everything they can to surpass each other in the quality and production of their crops. Each member in the contest has one-eighth of an acre of corn, onions, melons, potatoes, sweet potatoes or miscellaneous crops. Many of the last year's contestants have entered again.

La Hoh, the venerable healer of the Mohave Indian tribe, near Needles, is dead and a short time ago, his body, lashed to a burning raft, made its last journey alone down the Colorado river. The ancient sage, whose actual age seems to have been unknown even to himself, was a familiar figure in almost every Indian encampment in southern California, western Arizona, and Nevada.

Mariposa county's picturesque hills, from which thousands drew fortunes in the hectic gold mining era, was visited recently by several hundred members of the Merced County Chamber of Commerce automobile caravan, officially christening Murietta Trail, the one-time route of the notorious bandit who terrorized the San Joaquin valley and Mother Lode section of the state in the fifties.

Construction of three new vehicular ferry boats at San Francisco, costing $500,000 each, a third slip at the Oakland pier with an addition of 47,500 square feet of dock area, costing about $175,000, and extensive improvements at the Mission street vehicular terminals, are planned by the Southern Pacific. Contracts for the three boats will be let immediately.

The farmer and his family lead secluded lives, although the mechanical changes of the past twenty years have relieved the isolation. Automobiles, telephones, and the extension of interurban lines and the radio render life on the farm less lonesome.

Apparently

Love of an argument is possibly the most sterile of all human affections.—Cincinnati Times-Star.

Self-Helps the Doctrine

If you would have a faithful servant and one that you like, serve yourself.—Benjamin Franklin.

Lives Lost in Fires

It is estimated that fires annually cost the United States about 15,000 lives.

25 COTTAGES FROM THIS TREE POSSIBLE

Standing in the timber holdings of the Little River Redwood Company near Crannell, Humboldt county, is a gigantic redwood which, if felled and milled, would make a sufficient quantity of lumber to construct twenty-one five-room bungalows. In a letter received a short time ago by State Forester M. B. Pratt, officials of the company state that the tree is 308 feet in height and measures twenty feet in diameter five feet above the ground. The board footage of the tree is calculated at 361,366.

Since the average amount of lumber that goes into a five-room bungalow is 17,000 board feet, the tree would furnish enough material to "build up" a street more than three blocks in length.

This mighty forest monarch is believed by State Forester Pratt to be one of the largest trees in the state outside of national forest areas.

The home of the Red Emperor grape, Exeter, Tulare county, wants a first-class band to toot the merits of Exeter and the Kiwanis club of Exeter proposes to get such an organization. Exeter has been without a band several years, but a committee is now actively engaged in listing prospective jobs and positions for musicians who might desire to locate in Exeter and play on the side along with a goodly number of regulars who will be used as the nucleus.

Tulare, Kings and Fresno counties were quite a revelation to a group of officials of the Pacific-Southwest Trust and Savings Bank, from southern California, who have been spending the past few days in these counties on a tour of inspection. Conditions, they admitted, were much better than they had been led to believe and all admitted that unquestionably this section will receive a much higher rating for loan purposes.

While the heavy April rains in San Fernando valley benefitted most of the growers they did some damage to various matured crops, especially to the hundreds of acres of lettuce in the Reseda vicinity and between Reseda and Van Nuys. Just as the bulk of the lettuce crop was about to be harvested and shipped, the rains came, bursting the heads in the field. Some of this lettuce has been culled, harvested and shipped, but most of it was left in the fields.

The city manager of Visalia, Tulare county, is at present engaged in the task of developing a model poultry ranch on the Visalia municipal farm two miles west of Visalia. It will perhaps, be the first model poultry ranch actually developed and the property of any municipality in California and is to be developed for the double purpose of promoting the industry and materially adding to the city exchequer.

Officers in Marysville have about reached the conclusion that the Marysville offices of the Western Pacific railroad are the special object of the crooks of this section. Within the past few months the depot agent has been held up, box cars have been robbed, property stolen from the right of way, while most recently the baggage room was burglarized. Bedding shoes and clothing were included in the loot.

Old prospectors in Placerville, Eldorado county, were attempting to retrace the meandering course of a horse with gold-flecked hoofs, hopeful that they will find an earth pocket lined with gold. The excitement was caused when the horse was taken to a blacksmith shop to be shod. The blacksmith lifted up one of the animal's hoofs to put on new shoes, when the glitter of gold caught his eye.

The San Jose offices of the P. G. & E., will organize a "Sign of Progress" club in the near future it was announced from the Marysville offices of the company recently. The Marysville office formed a luncheon club under this name early this year and it has been so successful that other offices now want clubs modeled after it, San Jose being the first to take definite steps in that direction.

Because of high prices obtained for Irish potatoes in the Van Nuys vicinity this spring, many tomato and bean growers have turned their fields into potato farms, and this summer a very considerable crop is expected. Within the next two or three months it is predicted that potatoes will be cheaper than they have been for several years.

Tulare County Jersey cattle breeders are planning to organize a Jersey association, the object being to promote this particular breed in the county. At the present time there are said to be twelve dairymen in Tulare county specializing in Jersey cattle. They are expected to form the nucleus of the contemplated association.

The first step in a far-reaching plan to convert into tillable land 18,000,000 acres in California, rather than the 4,000,000 acres it is possible to irrigate under the doctrine of riparian rights was taken recently when a proposed constitutional amendment was filed with Attorney-General U. S. Webb.

At a location recently acquired in Merced by J. C. Cocanour in the industrial site of the Southern Pacific company, concrete foundation piers are being put down for a tomato packing shed, which the building contractor, expects to erect in time to permit packing to begin by the 1st of June.

The State Fish and Game Commission formally assumed a five-year lease on thirty acres of Yountville State farm for its proposed experiment in raising quail, partridges and pheasants to restock California mountain districts. The lease was approved by the State Board of Control.

Keep at It, to Win

It's the way a man sticks to a thing that marks him as a success or a failure. Many a fellow has won out at the eleventh hour just because he wouldn't let go. Don't be a quitter.—Farrington.

"Comparatively" Is Good

New York Paper—"One grim look—a deep breath—two terrific seconds—then the parachute opens and the 2,000-foot descent is comparatively certain."—Boston Transcript.

"The Sun Do Move"

The sun, like all other known stars, moves through space. Astronomers estimate that it travels at the rate of about 13 miles a second. Whether the sun has a definite orbit is not known. Of course the rest of the solar system, which consists of the earth and other planets, is carried through space with the sun.—Pathfinder Magazine.

Sphere of Comets

The Naval observatory says large comets have sometimes reached a point near the sun before being discovered. This was the case with the great comet of 1843. A comet might approach its perihelion point from a direction nearly in line with the sun, as seen from the earth, which would make it difficult to observe.

The Mule

Being told to write an essay on the mule, a small boy turned in to his teacher the following effort: "The mewl is a hardier bird than the guse or turkie. It has two legs to walk with, two more to kick with and wears its wings on the sides of its head. It is stubbornly backward about coming forward."

Eternal Question

These limbs; whence had we them—this stormy force, this life blood with its burning force? They are dust and shadow—a shadow system gathered around o'er me; wherein, through some moments or years, the divine essence is to be revealed in the flesh.—Carlyle.

The BULL'S EYE

Editor and General Manager WILL ROGERS

Another "Bull" Durham advertisement by Will Rogers, Ziegfeld Follies and screen star, and leading American humorist. More coming. Watch for them.

No Governorship For Mine

My good old friend the Governor of Oklahoma was in to see me at the theatre the other night. I had just had humorous mention as a candidate for that position, as they wanted to revive the Populist Party with me as the Standard Bearer.

Well, the Governor showed me what had happened to a friend of his who had been defeated for Governor in our state, so he discouraged me. I won't accuse him of doing it purposely, but he did. His friend's campaign expenditures were as follows:

"I kissed 6,000 babies; helped 42 voters thrash wheat; shook hands with the entire State; smoked 3,000 sacks of 'Bull' Durham; cut 22 cords of wood; helped brand 8,000 calves; spayed 4,000 of them; was sprinkled 8 times in Methodist Churches; totally immersed in cold water in muddy creeks three times by the Baptist; went to confession in every Catholic Town; paid dues to 11 Synagogues; charter member of the Holy-Rollers; listened to 800 get-together Kiawanis, Lions, and Rotary speeches; bought sheet and pillow slip in every Ku Klux Klan in the State; and then I was defeated.

"'Bull' Durham was my sole satisfaction not only during, but after election. It is the only thing that stayed with me."

Will Rogers

P.S. There will be another piece in this paper soon. Look for it.

Shortridge for Senator --That's Logic

There is nothing so foolish as electing a man president and then "hog tying" him with a hostile senate. We supported Coolidge in 1924 and we will support a Coolidge Senator in 1926. We are for Hon. Samuel Shortridge for United States Senator to succeed himself.

—Sonoma Valley Moon

—o—o—o—

A By-Product of a Wonderful School

A EW people realize how important a factor are are our public schools in the prosperity and and growth of a community—purely a commercial viewpoint. We measure the products of our schools in terms of cultural and educational value, their spiritual influence, their part in developing better citizenship, their work in equipping our youth to meet the problems of life. These primary products are of first importance and it is a whole some condition that they are so stressed. However, we often overlook the fact that a community without an effective school system may be not only lacking in these essential elements but likely to be equally as far behind in material prosperity.

When the time comes for a family to change its residence, a location accessible to an efficient school is of first concern. This is true in intra as well as inter-city movements. Realty values are affected by proximity to the class room. A good school will surround itself with a solid population of industrious families; families whose wants must be supplied, who build up church membership, patronize shops and stores, give their patronage to the professions and thus fill the arteries of trade with the blood of business.

The Better Schools League calls attention to this phase of school influence, an influence that aids in building up the business welfare of a district as well as leading in the mental and ethical development of its youth. A substantial, sightly and well-equipped school plant, manned by a teaching force of personality and power, with adequate facilities for study and play, is a source of prestige, a worthy asset to city district or country town. Such a school atmosphere makes for stability and solidity in the property surroundings, increasing land values through its influence on the character of the neighborhood and on the volume of trade.

We have the testimony of a former cabinet member who has said that ambitious citizens will go where education may be had for their children. The same point is emphasized in the story of another prominent American who tells of his father's leaving the backwoods of the Ozark Mountains because there were available but three months of school. "My father packed our belongs in a covered wagon," he relates, "and went to a new state—and we moved out of a three months' school into a nine months' one, with a free high school."

This leads us to wonder how desirable are new residents to a community who are not sufficently interested in their children to inquire regarding school advantages before establishing a new home. It has been said, "We can judge of a civilization as well as an individual by the way childhood is treated."

This is a view of a by-product of our school, a form of public service to the community that should impress residents who have no occasion to utilize the schools as well as non-resident property owners, both of whom sometimes feel that they have taxation without proportionate benefits.

The importance of the products and by-products of our schools may be summarized in the words of Herbert Hoover, "If we were to suppress our educational system for a single generation the equipment would decay, the most of our people would die of starvation, and intellectually we should slip back four thousand years in human progress. We could recover the loss of any other big business in a few years—but not this one."

—o—o—o—

No one realizes how things pile up so much as a husband whose wife has visited her parents for two weeks, unless it is an engineer at a railroad crossing in the springtime.

—o—o—o—

A Michigan woman had her husband arrested for bigamy when she discovered his second wife wearing her engagement ring. She objected to his killing two birds with one stone.

Shortridge Club Is Organized

Without waiting for Senator Shortridge to announce his candidacy, his friends have been organizing clubs in his behalf all over the state.

Two new Shortridge-for-Senator Clubs have recently been organized in Tulare county, with large memberships, one at Visalia and the other at Tulare.

J. A. Chase, chairman of the Coolidge Club, and a member of the County Central Committe, is president of the Visalia club. The vice-presidents are Otto T. Acuff, manager of the Abstract and Title Co., and Chas G. Lamberson. H. M. Hetzler, cashier of the First National Bank, is treasurer and V. J. Pardee, city manager, is secretary.

C. E. Taylor, secretary of the County Central Committee, is president of the Tulare Club, and Supervisor R. C. Sturgeon and City Trustee Paxton are vice-presidents W. E. Dunlap, president of the First National Bank was elected Treasurer, and G. W. Linder, a member of the County Central Committe, is secretary.

In addition to these, clubs have been organized the past week in Stockton, Willows, Fort Bragg and San Luis Obispo.

San Mateo county has been thoroughly organized for Mr. Shortridge. Clubs have been organized in South San Francisco, Burlingame, San Mateo, Halfmoon Bay, Pescadero, Menlo Park, Redwood City. One of the largest clubs of the peninsula is being organized at Palo. When the organization is complete the club will have a membership of 300.

HI-Y TRACK MEET GREAT SUCCESS

Monday, the 24th of May, 1926, will go down in the history of the Sequoia Hi-Y as one of the biggest days in its history. The activities began at 4:30 p. m. with a field meet between the Hi-Y and Comrade Clubs of San Mateo and Burlingame. It was hotly contested with San Mateo strong on the events. Just before the final track and Sequoia taking the field event, the relay, the score stood 45 to 45. By taking the relay Sequoia took the meet by the score of 50 to 45. First time was made in many of the events. The events were as follows:

Mile: Bryant, (S. M.) first; Rosselle, (S), second; Nystrom, (S), third.

220 Yard Dash, Morrison, (SM) Hinman, (S) second; Jones, (SM) third.

440 Yard Dash: Morrison, (SM) first; Gilmour, (SM) second; Peters, (S), third.

880 Yard Dash: Gilmour, (SM), first, Morrison, (SM) second, Kellog, (S) third.

100 Yard Dash: Gilmour, (SM) first; Werder, (S), second; Leggett, (S), third.

Low Hurdles: Gilmour, (SM), first; Leggett, (S), second; Kellogg, (S), third.

Shot: Christianson, (S), first; Leggett, (S), second; Schultz, (S) third.

High Jump: Gilmour, (SM), first; Leggett, (S), second; Arend (S) third.

Broad Jump: Werder, (S), first Gilmour, (SM) second; Leggett, (S) third.

Discus: Given to Sequoia.

Relay: Sequoia.

Arthur Gilmour was high point man for San Mateo, taking four firsts and two seconds, while Leggett held the high position for Sequoia.

At 5:45 p. m. the South San Francisco Comrade Club played Sequoia Hi-Y basketball with the long end for Sequoia, 16 to 0.

At 6:45 close to sixty-five sat down to a fine dinner at the Congregational church put on under the direction of "Mother" Moore and a number of ladies from the Methodist church. The tables were set in the shape of a block "S" in honor of all schools represented, Sequoia, San Mateo, South San Francisco and Stanford. The decorations were in the colors of the schools and each boy was given a buttonhole boquet with a flower appropriate to his school colors.

Six Stanford men put on the program of the evening, putting on their own musical numbers and talks. The meeting was especially of interest to those who are going to college nextfall. The theme of the talks was "How to get the most out of a college education."

SCHOOL EXAMINATIONS TO BE HELD TUESDAY

The County Board of Education of San Mateo county has set June 1st for the date of final examinations for eighth grade pupils. The following centers have been named where the tests will be given at 9:00 a. m.

Pescadero — Sunnyside, Pigeon Point and Pescadero schools.

Halfmoon Bay — Higgins, Moss Beach, Purissima, Tunis and Halfmoon Bay schools.

San Bruno — Millbrae, Lomita Park and San Bruno schools.

Jefferson District—Colma, Visitacion, Woodrow Wilson, Crocker Tract schools.

Redwood City — Menlo Park, Las Lomitas, Woodside, San Carlos, Belmont, Portola, Ravenswood and Redwood City.

San Mateo — Peninsula Avenue, Hillsborough, Lawrence and Peninsula Central, Homestead and Central schools.

Burlingame — McKinley and Howard avenue Schols.

SAN CARLOS

A group of San Mateo county doctors, headed by Dr. Sharpe, eye, ear, nose and throat specialist of San Francisco, conducted exainations to more than 100 children of pre-school age and those to be enrolled in the receiving classes of the San Carlos and Belmont schools for the coming year. Dr. Harry Warren of Belmont, Dr. J. G. Null of San Carlos and Dr. William Murphy of Redwood City and Dr. Charles Decker of San Carlos, dentist, assited in the examinations which were sponsored by the bureau of child hygiene.

Mr. and Mrs. J. P. Siemer of San Francisco were dinner guests of Mr. and Mrs. J. M. Edling on Sunday.

Mr. and Mrs. A. Dennery and children and Lois Odgers spent the week end at Ben Lomond, in the Santa Cruz Mountains.

Mrs. Louis Price of Devonshire Heights was hostess recently at a bridge party complimentary to Mrs. Dwight K. Grady who is the house guest of Dr. and Mrs. J. G. Null. Guests included Mr. and Mrs. A. Doctor, Mrs. Dwight K. Grady, Dr. and Mrs. J. G. Null, and Mrs. L. Price.

Members of the San Carlos P.-T. A. who attended the luncheon and general installation of the county federation of Parent-Teachers Association, at Lomita Park, on Friday, May 21, included Mesdames Joseph E. Baughn, W. H. Gatchell, D. L. Stewart, Andrew Johnson, J. M. Edling and Harry Mahany. Mrs. J. E. Baughn was elected to the office of 2nd vice-president and Mrs. W. H. Gatchek will take up the duties of auditor for the ensuing year.

Work on the new telephone building is going along very rapidly. The walls are complete and work has started on the roof so that it is anticipated that the shell will be compleed by June 1st without difficulty. Operation of the exchange winn ot commence until September 1st.

Dr. and Mrs. J. G. Null entertained at bridge last week in honor of Mr. adn Mrs. Dwight K. Grady who is the house guest of Dr. and Mrs. Null. Delicious refreshments were served, at the conclusion og the game, guests including Mr. and Mrs. H. W. Mahany, Dr. and Mrs. C. M. Decker. Mr. and Mrs. Robert Letts and Mr. and Mrs. Roy Peterson. Mrs. Mahanay and Mr. Dwight Grady held high scores. Mr. Grady is a brother-in-law of Mrs. Null.

The Associated Firemen of San Mateo county met at San Carlos on Tuesday night, at which meeting four new offices were created. The attendance was good. Martin J. Cahill, San Carlos, was elected, 2nd vicepresident and three new trustees were created: Chief Davis, Woodside, Harry Gee, San Carlos, W. Smith, Menlo Park. After the business session an adjournment was made to Pete's Fashion Grill where covers were laid for fifty-eight members and friends. Speakers of the occasion were G. H. Sesnon, Judge Rapsey, San Bruno, Chief Davis, Woodside, Trustee W. Naudsitts, San Bruno and Chief Edward J. Wheeler.

At the home section meeting held at the home of Mrs. Lyle Clark, the County Fair to be held at the school house next month was the main topic of discussion. A preliminary organization was effected and the final program scheduled for execution will be concluded on oMnday or Tuesday of next week.

There will be an afternoon and evening session. In the afternoon the time will be devoted to the sale of foods and other articles while in the evening there will be cards and dancing.

LIFE POSSIBLE IN MARTIAN TEMPERATURE, BUT CAN'T THRIVE BELOW 50 DEGREES

As time goes on, science is learning more and more about conditions on our sister planet, Mars. Already, by means of the spectroscope, we know that Mars is composed of material similar to the material which composes the Earth. And now comes a device which allows scientist actually to measure the Martian temperature.

This instrument is known as an electric thermo-couple. Through its use, astronomical observatories have discovered that the temperature of Mars is very much like the temperature of the Earth on a cool day. This discovery lends weight to the theory that Mars is capable of supporting life, as we know it. On colder planets, more distant from the sun, such life could not exist. For it is a scientific fact that living organisms cannot thrive and multiply in temperatures below fifty degrees.

This fact is daily demonstrated in the modern household. Food stuffs, subject to spoiling through bacterial action, can be kept nutritious and palatable by keeping them in the constant low temperature of a well-iced refrigerator. The cold prevents the bacteria-living organisms from multiplying, and the food remains fresh. When the food is allowed to remain is the ordinary temperature of the room, bacterial action begins, and the food spoils rapidly.

PESCADERO

Mrs. Joe Baker and Miss S. M. Pinkham spent Saturday in San Francisco.

Mr. and Mrs. L. P. Baker and Mrs. Anna Olsen of Santa Cruz and Monterey spent the week end here with relatives and friends.

A number of the friends of Miss Sarah Pinkham tendered her a birthday surprise party Saturday.

The many friends of Graham McCormick are rejoicing over the word that he is able to up in a wheel chair.

Many of the people of the town took in the Chamorita at Half Moon Bay Staurday and Sunday.

Mrs. J. E. Mygrant entertained Mrs. H. A. Steinberg, Mrs. Harry Nelson and Mrs. Frank Luis and daughter, Grace, Friday afternoon at her home at Pigeon Point.

Mrs. M. R. Mattei, Mrs. Theresa McCormick and Miss Mary Frey were San Mateo visitors Monday.

Miss Madeline Silva who has made her home with her aunt, Mrs. Frank Duarte, has returned to her home in San Luis Obispo.

Mr. and Mrs. Antone Cavalli of San Jose were recent visitors at the Duarte home.

Frank Duarte Sr. is visiting Joe Nunes of Manteca.

J. A. Valadon is spending this week end in Oakland with his family.

Mrs. Dwight Durant of Oakland held a delightful party at her home in the Butano this week. Many of the local people attended.

Miss S. M. Pinkham entertained Mr. and Mrs. Antone Vierra and children, Mrs. Joseph Baker, Mr. and Mrs. Frank Williamson and children and George V. White at a delightful dinner Sunday.

Mr. and Mrs. Joe Brazil and daughter of Gustine are visiting their parents, Mr. and Mrs. John S. Lewis.

Mr. and Mrs. Milton Neavermount, Mr. and Mrs. Ray Echart and Henry Adair visited their parents, Mr. and Mrs. D. C. Adair.

Mrs. Mary George who has been visiting her daughter and son-in-law, Mr. and Mrs. Lee Waybright of Oakland, returned home Saturday.

Mrs. W. H. Moore and Mrs. J. S. Mesquite spent Monday in Santa Cruz.

Mrs. F. G. Williamson and daughter, Harriet, Mrs. James McCormick and daughter, Patricia, spent Tuesday in San Jose.

Mr. and Mrs. Winslow Ralston are the proud parents of a baby by born, May 20th at the home of Mrs. Jack Caughy.

Leste and Robley Pinkham, Melvin Mesquite, Edwin Roderguise, Alfred Luis, and Miss Elsie Bloomquist visited Graham McCormick Sunday at San Mateo.

Stanley Steele spent the week with John E. Ralston at Memorial Park.

F. G. Williamson and J. A. Valadon were Santa Clara visitors Monday.

MOVIES

MARION DAVIES IN A NEW ROLE

In "Beverly of Graustark" She Plays a Modern Romantic Girl

Marion Davies, heroine of many romantic roles, is playing one unlike any in her entire career, in her new Cosmopolitan production, "Beverly of Graustark," which opens next Monday and Tuesday, May 30 and 31, at the Sequoia Theatre.

Miss Davies has played romantic heroines in historical dramas of the past; has been the center of court intrigues in mediaeval times, has played roles laid in the infancy of New York—but this time she is playing the romantic center in a European court intrigue—but of the modern day.

Royalty goes through its devious political bargainings and its Burbanked romances—just as in in the days "When Knighthood Was In Flower"—but it is all strictly up-to-date—so much so that a good deal of modern history is, perhaps unconsciously, echoed in the story, which is a spectacular adaptation of George Barr McCuthcheon's famous novel.

Miss Davies plays the heroine, an American girl, cousin to the crown prince of a European kingdom, who, to aid her royal relative, engages in a daring masquerade, in which, in his uniform, and with her haid clipped short, she impersonates him to foil the plot of a pretender to the throne. Miss Davies' male masquerade is one of the wonders of the screen, so perfect is the illusion. In her uniform, the star is almost a double for the Prince of Wales.

A notable cast surrounds the star, with Antonio Moreno in the leading male role, Roy D'Arcy, Creighton Hale, Paulette Duval, Albert Gran, Max Barwyn, Charles Clary and others.

Sidney Franklin, director of many of Norma and Constance Talmadge's successes, directed the picture, which was produced on a lavish scale, with gorgeous setting and costumes at the Metro-Goldwyn-Mayer studios. Agnes Christine Johnston is the scenarist.

—ooo—

W. C. FIELDS IS STARRED IN "IT'S THE OLD ARMC GAME"

An old-phrase soon destined to come into popularity again is the well-known saying: "It's the Old Army Game." Why? That's the title of W. C. Field's first starring picture for Paramount, which arrives at the Sequoia Theatre next Wednesday and Thursday, June 2 and 3.

Oldtimers will testify that the phrase has nothing to do with the army. Fields himself says it means "Never give a sucker an even break." And that just about explains it.

Remember the old circus and medicine side-shows that used to arrive in town? There was always a redfaced chap mounted on a platform who called out: "Step up, la-a-a-dies and gents! See if you can tell under which shell is the pea!" Then he moved the shell around rapidly and you'd guess. Usually wrong.

Well, that's 'the old army game

"The old army game" has been practiced as long as humans have lived. They say prehistoric cavemen used to play it. Definite records show that it had a part in early Chinese history. And the Romans at the height of their glory, were experts, in kidding the suckers."

The exact origin of the phase is a little indefinite. Why the army was brought in is problematical. Some say that it refers to the buck private and his lot. A buck private is popularly, if humorously, supposed to do all the work.

However, the phrase has gone beyond the limits of the army and now refers to any phase of life in which suckers appear. According to many experts, that is in just about every strata of existence.

This humorous side of American life is the basis of W. C.Fields' first picture, a characterization he has made famous on the musical comedy stage. Louise Brooks is featured. Edward Sutherland directed.

Fields dashed in with about 200 citiezns following, to the great delight of the proprietor, who figured it to be excellent advertising for his bargains.

Louise Brooks is featured in "It's the Old Army Game." The picture comes to the Sequoia Theatre next Wednesday & Thursday, June 2 and 3.

"LI CHEN", CHINESE PLAY AT STANFORD, JUNE 12

"Li Chen," a three-act comedy by Mrs. John J. Cuddy, has been secured for this section by the Parent-Teacher Association of the southern part of the county, and will be staged at the assembly hall of Stanford University on June 11, at 2:15 p. m. The play is being put on by the Children's Theatre of the Players' Guild of San Francisco and has been secured by the P.-T. A. for the benefit of the scholarship fund of Stanford University.

The cast of "Li Chen" is composed entirely of childre, but so clever is their acting that a writer writer in the New York Sun in covering a production of the play in that city wrote, "I have never seen anything as charming as "Li Chen" since Maud Allen in "Chanticleer." New York in Childrens Theatre parable to this. It production."

The play is laid in a remote part of vast estate of Ming able music for the written by Mary Dances were designed Carling Oschner.

Tickets are for sale at Palo Alto after June 50 cents. Mail orders received now by Mrs. ham, 1228 Byron stree

In 1895, electric energy transmitted at 11,000 volts for a distance of 21 miles was heralded as the great achievement of the day.

Did the men responsible for California's present pre-eminent position in the electrical field stop with that accomplishment?

No—they spent their time and money in a development which now makes it practical to transmit electric energy at 220,000 volts for hundreds of miles.

This made possible the development and use of power resources—otherwise not economical—resulting in decreasing rates for electric energy.

East Palo Alto

There will be no school Monday in observance of Memorial Day which comes on Sunday.

Next Tuesday evening will be the regular meeting of the East Palo Alto Grange and a social time will feature the lecture hour, following the business session.

Miss Nettie Walker of East Palo Alto leaves today for a visit with reatives in Salinas.

Mrs. Nellie Hunt of San Francisco who passed the week at the home of Mr. and Mrs. J. L. Arnold in East Palo Alto returned home Saturday.

Mr. and Mrs. Neils Jacobsen left Saturday for a motor trip to Los Angeles. Mrs. Jacobsen's sister and brother-in-law, Mr. and Mrs. Rasmussen are staying at the place during their absence.

Mr. and Mrs. George Risley have moved into the home they have been building on Cherry strett.

Mr. and Mrs. W. P. Hatfield who have been living on the Talley place in East Palo Alto moved the last of the week to their own property on O'Conner street. Mr. and Mrs. Geo. Bligh have moved to the house vacated by them and their son, George Bligh, and family of San Francisco are moving down this week to the home vacated by Mr. and Mrs. Bligh, Sr.

Robert Garcia has moved to the new home recently completed on University avenue.

Mrs. A. E. Alberston and Mrs. Henry Bareilles passed the day, Monday with relatives in San Jose.

The foundation is being laid for a new home on the George Marshall property on Walnut street.

Mrs. T. B. Dozier of San Francisco is passing the week with her son, F. W. Dozier and family in East Palo Alto.

Mrs. W. A. McElhattan of East Palo Alto is passing a few days in Oakalnd at the home of her sister.

Mr. and Mrs. M. C. Toner of Eagle Rock, California, arrived Friday for a visit at the home of Mr. and Mrs. W. H. Barnett. He is a son of Mrs. Barnett.

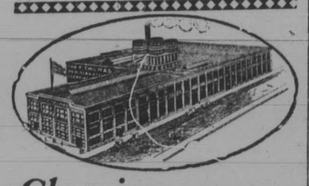
FRUIT MERCHANTS FIND LONG DISTANCE AN ALLY

Because of the perishable nature of their goods and the fluctuating prices which demand rapid buying and selling, wholesale fruit and produce merchants of Atlanta, Ga., find the Long Distance telephone service essential in buying and selling from distant points. The use of this service is especially suited to their particular demands and results in a substantial reduction in their sales costs.



Cleaning Without Odor by the **F. Thomas** *Process*

Our many years of experience has taught us that it is impossible to do perfect cleaning with cheap, inferior methods. That is why we found it necessary to invest nearly $500,000 in the equipment of a plant and the establishment of an expert organization to do the quality of work demanded by our customer.

With the "F. THOMAS PROCESS we do not only remove every particle of dust but we return your garments without that usual disagreeable smell of gasoline Every drop of gasoline we use in cleaning is redistilled and very highly refined.

Raw gasoline — the kind that you buy fo you automobile — is full of heavy oils and unfit for cleaning fabrics. It is little better than ordinary distillate and leaves a sickening gasoline smel in your clothes.

APPLIES FOR LETTERS OF ADMINISTRATION

Pauline M. Sullivan has applied for letters of administration in the Superior court upon the estate of her mother, Mary J. Sullivan, who died at San Mateo on February 24, 1926. The estate consists of the Sullivan residence on B Street, San Mateo, valued at $2500. The heirs at law are the petitioner and another daughter, Lucy A. Sullivan.

OPERATOR OUTWITS BANDITS

When Mrs. Frankie Stark, night telephone operator at Fort Pierre, South Dakota, was gagged and bound to her chair by two masked men at 2 o'clock in the morning recently, she did not lose her presence of mind. She toppled her chair over and managed, after several different attempts, to crawl to the fire alarm button, which she finally reached with her foot, arousing the citizens. The telephone operator was commended by citizens for outwitting the bandits.

ZONING ORDINANCE IS UPHELD

The following decision was handed down last Monday by Judge Buck. It will be widely read by all those interested in the zoning law:

Charlotte Zehind vs City of Burlingame

"This is an action brought by plaintiff against the City of Burlingame to restrain the latter and its officers from interfering with the plaintiff in conducting her business carried on in said city. The plaintiff is conducting a business prohibited by a zoning ordinance. In 1917 the City of Burlingame passed an ordinace called a zoning ordinance establishing a residential district in said city and prohibiting business places of all kinds therein which included the property on the State Highway now before the court. Thereafter said ordinance was amended and other ordinances adopted.

"The zoning ordinaces of the City of Burlingame have been before this court frequently and in the acse of the People vs Greenslade tried before this Court an opinion was filed by this Court in regard to them to which opinion reference is hereby made. There is a question as to whether or not the Court under the pleadings in the case of the People vs Greeninances and it might be proper before findings are filed herein to amend the answer to conform to the evidence. The place of business now under consideration was established after the passage of the ordinace in question. No question is raised about the legality of the ordinance. The zoning ordinances of the City of Burlingame as before suggested have been before this Court and therefrom and the evidence presented it would seem that the people of the City of Burlingame have emphatically declared that the City of Burlingame especially along the State Highway is and shall remain a city devoted to homes and home life and it might be added that the State Highway running through said City is lined with homes giving evidence to all persons traveling theron that the City intends to retain its homelike appearance. Hence this Court will not except upon the most positive evidence set aside the wishes of the people. There is no preponderance of evidence on behan of the plaintiff. Judgment for defendant.

"May 24, 1926.

BUCK,
"Judge."

OARD OF SUPERVISORS, COUNTY OF SAN MATEO, STATE OF CALIFORNIA.

Notice of Hearing of Petition to Annex Territory to North Palo Alto Lighting District of San Mateo County

By order of the Board of Supervisors of the County of San Mateo State of California, notice is hereby given that a petition was presented to said Board on May 10, 1926, which petition was signed by owners representing at least one-half in number of the total owners of real property and at least one-half of the assessed valuation as shown by the last equalized assessment book of the county in which said territory is situated, of the real property in said contiguous territory proposed to be annexed to said lighting district;

That said petitioners request said Board of Supervisors to take all proceedings necessary to annex all of the territory located within the North Palo Alto Sanitary District of San Mateo County and not included within the North Palo Alto Lighting District of said county. In other words, that territory be annexed to said lighting district sufficient to make the boundaries of said lighting district and said sanitary district coterminous;

That testimony with reference to said petition was heard by said board on the 10th day of May, 1926;

That on the 17th day of May, 1926, the same being the next regular meeting after the meeting at which said petition was presented, said board regularly fixed the time and place of hearing of said petition and of any objections thereto and of any objections to inclusion of property within said proposed annexation for the 14th day of June, 1926, in the Chambers of said Board of Supervisors in the Court House, at Redwood City, California.

ATTEST:

ELIZABETH M KNEESE,
County Clerk, and ex-officio Clerk of said Board of Supervisors.

NOTICE OF SALE OF BONDS OF REDWOOD CITY SCHOOL DISTRICT, AN ELEMENTARY SCHOOL DISTRICT OF SAN MATEO COUNTY.

The Board of Supervisors of the County of San Mateo, hereby invite sealed proposals for the purchase of Fifty Thousand ($50,000.00) worth of bonds of the Redwood City School District, an Elementary School District of San Mateo County, State of California, and bids therefor will be received by said Board of Supervisors up to the 7th day of June, 1926, at the hour of ten o'clock A. M. of said day when all bids received will be opened at the Chambers of said Board. Said bonds are numbered from one (1) to fifty (50) inclusive and each is of the denomination of One Thousand Dollars, ($1,000.00) and bears interest at the rate of five per cent (5%) per annum, payable semi-annually, on the 1st day of January and the 1st day of July of each year, principal and interest payable in lawful money of the United States at the office of the Treasurer of said County of San Mateo, at Redwood City, California, and will each bear date July 1, 1926, and the number of years said bonds will run when payable are as follows:

Bonds Nos. 1 to 3 inclusive, $1,000.00 each, to run one year;
Bonds Nos. 4 to 6 inclusive, $1,000.00 each, to run two years;
Bonds Nos. 7 to 9 inclusive, $1,000.00 each, to run three years;
Bonds Nos. 10 to 12 inclusive, $1,000.00 each, to run four years;
Bonds Nos. 13 to 15 inclusive, $1,000.00 each, to run five years;
Bonds Nos. 16 to 19 inclusive, $1,000.00 each, to run six years.
Bonds Nos. 20 to 23 inclusive, $1,000.00 each, to run seven years;
Bonds Nos. 24 to 27 inclusive, $1,000.00 each, to run eight years;
Bonds Nos. 28 to 31 inclusive, $1,000.00 each, to run nine years;
Bonds Nos. 32 to 35 inclusive, $1,000.00 to run ten years;
Bonds Nos. 36 to 40 inclusive, $1,000.00 each, to run eleven years;
Bonds Nos. 41 to 45 inclusive, $1,000.00 each, to run twelve years;
Bonds Nos. 46 to 50 inclusive, $1,000.00 each, to run thirteen years;

Said bonds will be issued in pursuance of the election held in said school district on the 8th day of March, 1926, and in conformity with the laws of the State of California, and pursuant to and in compliance with and in the form prescribed by resolution and order of said Board of Supervisors adopted May 10, 1926, and entered in the minutes of said board to which reference is hereby made for greater particularity.

Such proposals and bids may be addressed to said Board of Supervisors and bids may be made for either the whole issue of said bonds or for parcels thereof. Bids must be for not less than the par value of the bonds bid for, and be payable in cash in lawful money of the United States. The right is reserved to sell said bonds as a whole issue or in parcels and to reject any and all bids. Bids must be accompanied by a certified check, certificate of deposit or cashier's check upon or of some responsible bank in the sum of $1,000.00 payable to the Chairman of said Board of Supervisors and conditioned that the bidder will purchase said bonds at the price bid and pay for the same at the office of the Treasurer of said County of San Mateo, within five days after notice given that such bonds are ready for delivery.

The assesed value of the property situated within the said school district as shown by the last assesment rolls is $4,825,170.00 and there is a present outstanding bonded indebtedness of $160.000.00.

The Redwood City School District, an Elementary School District, San Mateo County, California, includes within its limits the incorporated Town of Redwood City, which is the county seat of San Mateo County, and the district has a population of approximately 8000. The district has within its limits two banks, several industrial plants and a large and prosperous residential district. There is no existing litigation in th district involving any school matters and at the present time here is no difficulty of any nature threatening litigation.

Said $50,000.00 worth of said bonds hereinabove referred to are part or an issue of $85,000.00 authorized by an election held in said district on March 8, 1926, at which election 548 votes were cast in favor of the issuance of said bonds and 24 votes were cast aaginst the issuance of said bonds.

By order of the Board of Supervisors of the County of San Mateo.

Dated: Redwood City, Cal., May 15, 1926.

ELIZABETH M. KNEESE,
County Clerk and ex-officio Clerk of said Board.

The WATER BEARER

By J. ALLAN DUNN

Author of "A MAN TO HIS MATE" "RIMROCK TRAIL"

© By Dodd, Mead & Co. WNU Service

THE RESCUE

SYNOPSIS.—Idly fishing Hermanos creek, in California, Caleb Warner, civil engineer and a New Englander, is witness of the end of a coyote pulled down by two wolfhounds, urged on by a girl rider. Admiring the hounds, he introduces himself, and learns her name is Clinton. With western hospitality she invites him to the ranch to meet her father. At the Clinton home Warner learns his new friend's name is Betty. He is welcomed by her father, Southern Civil war veteran and owner of Hermanos valley. He tells them something of his ambitions and his feeling that he is destined to be a "Water-Bearer." In the town of Golden Warner shares an apartment with his old Columbia college chum, Ted Baxter, carefree and somewhat dissipated youth, only child of his widowed mother, who controls the family fortune. At a club luncheon Baxter introduces Caleb to Wilbur Cox, leading business man and president of the water company which supplies the needs of Golden. He gives Cox an inkling of his ambitions, and Cox, impressed, invites him to dinner that night. During dinner Cox asks Caleb to call at his office next day. He does so and Cox arranges a meeting between Caleb and Hinckley, the water company's chief engineer. Baxter tells Caleb he is in difficulties with a girl, Mary Morgan, Cox's stenographer, who insists he must marry her. With Hinckley, Caleb looks over the water company's source of supply, the Crystal springs, in Hermanos valley. Prospecting in Hermanos valley, Caleb meets a man, Evans, who boasts of his ability, through "divining rods," to locate water without boring. Caleb comes upon a picnic party, the festivities being in honor of Betty Clinton's birthday, and is welcomed.

CHAPTER VI—Continued

—9—

"I don't know," he answered. "I have been given a chance to go up to Beaver lake on a new project, but I do not have to accept just yet. Meantime I am looking around. I went over the Crystal Springs property yesterday."

"Did you?" broke in the other girl. "I've been there. Isn't it an ideal place for a picnic—or a honeymoon?"

Caleb laughed.

"I am afraid I was more practical in my imagination," he said. "I suppose, being from New England, I can't help that. I was chiefly interested in the water supply. But it was beautiful."

He gave them a little description of the trip and of how the dams had withstood the earthquake. And he added what Hinckley had told him of Crystal Springs valley before it had been turned into a great artificial lake.

"I can't help feeling sorry for the farms that had to be abandoned," said Betty Clinton. It seems a shame when you think of the fertile fields being turned to silt, the schoolhouse and the little church that had stood so long being torn down."

"Think of what the reservoir meant to Golden! It made a city possible," returned Caleb. "There is sentiment on both sides of the matter. Where a dozen families were displaced the water gave opportunity to thousands. Public utility must be the first consideration."

"I suppose so. Just the same, if I had owned a farm there, I would not have sold."

"If the rest were willing they might have compelled you to."

"You mean by condemnation proceedings? Well, they'll never do anything like that to Hermanos valley, for we own the whole of it."

"Not even for the good of the many? If it was necessary?" asked Caleb. Carmen looked at him curiously, struck by a sudden change in his voice. He took things concerning his profession very seriously, did this young engineer, she decided.

Betty Clinton shook her head determinedly in answer to Caleb's query.

"Not while my father lives. Nor while I do. We might sell a part of the valley. We have talked of doing so. We do not use much of it. And the land has advanced in value. But nothing must touch El Nido. You did not see the little cemetery in the cedar grove. There are three generations of Clintons buried there. My mother's grave among them. They must never be disturbed."

Carmen saw the muscles bunch in Caleb's jaws and wondered. For a moment he was silent. For a part of his vision had seen Hermanos valley restored to a lake, dammed and holding storm waters. Betty Clinton sat quietly and Caleb gazed at nothing through half-closed eyes. Carmen regarded them with a pout.

"You're a cheerful couple for a birthday picnic," she observed. "As for Thurston, he must be making that camera, or gone to town for a film."

She got up and stretched lithely. Then she screamed suddenly and shrilly, turning to cling to Betty Clinton.

A big bull had come into his pasture, the upland plateau that he regarded as his own, a magnificent Hereford, red of coat and white of face. He stood down-wind from the group and it was plain that he resented their presence. The great head was raised and lowered uncertainly, the wide curving horns tossed menacingly.

There was no shelter if the bull meant mischief. To run was to court disaster.

Carmen clung to her friend trembling, her eyes big with fear. Betty Clinton was pale but she faced the bull and not a muscle had quivered.

"I don't know just what we had better do," she said quietly to Caleb. "He's working himself up into a rage. To the carriage!

If we could make Padilla hear and understand."

Caleb resented this a little. He did not realize that the girl was thinking of Padilla mounted, acting as vaquero. Perhaps the resentment quickened his wits to action. Carmen screamed again just as the bull lowered his head and charged straight for them.

Caleb snatched at Carmen's hair and grabbed the scarlet beret.

"It's your hat that bothers him," he cried. "I'll handle him. Run—both of you. I'll hold him. Run!"

He waved them off with a shout as the bull came on. He saw Carmen, her black hair streaming from his careless tug for the hat, snatch at Betty's hand and start to run swiftly toward the wall. He saw, for a split-second, Thurston's startled face appearing over the stones as he ascended, heard the girls cry out and Thurston shout. He faced the bull, the flaming beret in his hand, prepared to play toreador, unarmed.

The bull roared as his glaring eyes caught the flare of the scarlet taunt waved by the man. Blind to everything else, centered in the desire to glut his rage on the offending color, he raced over the turf, leaving a little cloud-trail of dust, shaking the ground with his weight as he pounded it with his hoofs.

Caleb waited, not quite as coolly as he had wished, warily judging distance. As the sharp horns swept up, scooping for the cloth he held out at arm's length, Caleb sprang to one side and ran forward as the baffled brute, snorting and maddened, plowed past him, front legs stiffened in the attempt to stop and wheel, the great head clumsily turned toward the red beret and Caleb, who halted twenty yards away and provokingly displayed the bait.

The girls had got safely beyond the wall. In a second or so they would be out of sight. He had now only himself to look out for. The bull turned and came racing back. Caleb knew that he could not dodge forever. He could distinguish Betty's clear, high voice calling for Padilla. The words were in Spanish. He recognized a few of them. "Toro! Riata! Cavalho!" Then the bull took up all his attention. It came on with incredible speed, the lumbering gait seemed freed by rage. As Caleb leaped aside the brute swerved so swiftly that a horn grazed Caleb's arm, ripping cloth.

This time he had to turn and run down hill, away from the trees. His foot caught in the hole of a ground squirrel and his ankle was wrenched as he stumbled and jerked it clear. It was not a bad sprain but it handicapped him and would not get better with exertion. The bull had halted more easily going up hill. It was chasing him before he had got well into his stride. He had to sprint to get the chance to dodge. And this time he ran for all he was worth. He had almost won the trees when the bull caught up the distance between them.

Caleb glanced over his shoulder. He could hear the snorts of the crazed brute. He saw the massive head shift sideways for the toss, saw the roll of the blood-rimmed eyes and he leaped sideways with the last of his energy, his lungs straining and his heart pounding. And, as he jumped, he made the sacrifice of the beret, dropping it fairly in the bull's course while he felt the sweep of air as the beast's head was flung up, backed by the force of mighty shoulders, one horn impaling the beret that clung there, driving the bull to frenzied fury while Caleb, panting, dodged among the aspens and saw Padilla, mounted, swinging his rope, top the rise and tear in at top speed, yelling as he came.

The bull got rid of the offending Tam-o'-Shanter. He ground it into the turf, stamping on it and bellowing. He tore it to rags and trampled them. And then he flung up his head to see what had become of Caleb. He heard the yell of Padilla, a vigorous "Yahoo!" that seemed to revive memories none too pleasant. He wheeled and surveyed the rider uneasily. To chase a two-legged creature was one thing, a man mounted, swinging a loop the sight of which also stirred his sluggish brain, was quite another.

Before the lariat was flung he turned and trotted off, disappearing at the far end of the plateau before Padilla reined up and offered to take Caleb back behind his saddle.

"I don' theenk, senor, that he weel come back. He has been brand'—that toro—an' he remember. Eet is bueno that he does. Eef I rope an' tie heem, I mus' let heem go again. But eet weel be better, p'raps, eef you ride, senor. Me, I like eet better for myself."

He laughed and Caleb essayed to retrieve what was left of the beret. He gave it up as a hopeless job and mounted behind Padilla.

"Senor," said the Mexican, "you hav' save la senorita's life. She an' her padre weel thank you. I thank you too. Luis Padilla weel not forget."

CHAPTER VII

The Water Mine

They were all in the patio, talking in the dusk. The conversation had become general. Caleb was a listener. He had found, to his relief, that, after the earnestly expressed thanks of Clinton, of his daughter and of Carmen, he was not regarded in the light of a hero. It seemed to be generally granted that any of them would have done—or tried to do—exactly as he had done and he was grateful for the way they took it. Carmen managed to infuse something personal into her thanks, a warmth that hinted that the exploit had been all for her sake, with Betty a more or less incidental accessory.

Caleb was a listener from preference. He wanted to analyze, if he could, something of the stirrings of these Westerners.

The talk was mainly of Brompton's historic series of panels, the subject introduced by Betty Clinton, with the idea, Caleb thought, of covering him from Carmen's sallies. It was very plain that the artist was head over heels in love with the vivacious brunette, who kept him dangling. Caleb, smoking, pondered over Betty Clinton's attitude. Did she intend to marry Thurston? he wondered. The rancher was on eminently intimate terms with the family. She called him by his first name, Wendell.

He went early the next morning, returning to Golden. There he packed a grip with clothing and some of his instruments, and left a note for Baxter, saying that he would be away for several days. He took up his quarters at a country hotel near the station in Coyote canyon and hired a rig, determined to make a thorough investigation of Caliente plain.

With his pocket instruments he managed to get, unnoticed, tolerable surveys of elevations and distances. He had proven, to his own satisfaction, that the upper end of the plain was furnished with a basin of water at uniform level, a great supply, bottomed and sided with clay and capped with the same, through which capping the artesian water spouted wherever it was bored for. The Welsh Water-Finder did not have to be a great wizard to score hits in this region, he decided. But he had a further use in mind for the man.

Caleb is evidently up against a hard alternative — water or girl. Which way will he decide.

(TO BE CONTINUED.)

Sheridan Supreme as Prophet of Weather

The hope to be an accurate weather prophet is one which springs eternal in the human breast. Many people who have won fame in various walks of life aspired to add to their other accomplishments that of forecasting the weather. Richard Brinsley Sheridan was no exception. Sheridan's fame as a dramatist is secure by virtue of "The Rivals" and "The School for Scandal," but not content with that Sheridan must be famed as the prophet who made the nearest best prophecy of meteorological conditions for a period of a whole year. Being a poet, Sheridan had the advantage of the scientific predictors. Prosy science may be unable to tell what the weather will be for a longer future time than twenty-four hours, but poetic fancy knows no bounds and may take its unrestricted flight a good twelve months ahead. Although Sheridan was predicting British weather, his forecast suits the Middle West and we may rely upon it in making our plans for the year. Sheridan says:

January—Snowy.
February—Flowy.
March—Blowy.
April—Showery.
May—Flowery.
June—Bowery.
July—Moppy.
August—Croppy.
September—Poppy.
October—Breezy.
November—Wheezy.
December—Freezy.—Kansas City Star.

Spoiled the Effect

Mr. and Mrs. Bailey were entertaining friends.

"Yes, I think I must get a car this year," said the host, casually, during a lull in the conversation. "I haven't decided what make yet, but it's no use getting a cheap one; they're sometimes so unreliable. I suppose I can get a really serviceable little affair for $1,500 or so?"

While the company was still gasping at this careless mention of wealth, Bailey junior remarked: "I say, dad, will that funny-looking man call every week for the money like he did last year when you bought the bicycle?"—Exchange.

No Theaters in Java

In Java there are no theaters to speak of, and entertainments that call for an auditorium usually are given in large concert halls, the performances opening at 9:30 or 10 o'clock, because it is too warm prior to that hour to ask an audience to assemble. The concert halls are connected to clubs usually.

"Magi" Buried at Cologne

The name "City of the Three Kings" is sometimes given to the city of Cologne, Germany, because it is the reputed burial place of the "Three Kings," "Magi" or "Wise Men," who came to Bethlehem to offer gifts to the infant Jesus. According to the legend, their bones were brought from Milan to Cologne by the Emperor Frederick Barbarossa in 1162, and given to the archbishop of Cologne. The skulls of these "Magi," crowned with diamonds, with their names (Balthazar, Gaspar and Melchior) inscribed in rubies, are shown to visitors to the cathedral.

NEWS REVIEW OF CURRENT EVENTS

British Strike Is Ended—North Pole Reached Twice by Air Route.

By EDWARD W. PICKARD

GREAT BRITAIN'S general strike came to an end as suddenly as it began. Nominally the government won in the struggle with the Trades Union congress, for officially the strike was called off without conditions. But the organ of the Laborites announced that the Trades Union congress took this action "having reached the conclusion as a result of a number of conversations with Sir Herbert Samuel that a satisfactory basis of settlement in the mining industry can now be formulated."

In calling off the strike the Trades Union congress ordered the men not to return to work until instructed by their individual unions. This caused considerable delay in the resumption of work, for many of the unions were disposed to take advantage of the situation to exact better terms of employment. Some employers said they would not take back the strikers until they had torn up their union cards.

Prime Minister Baldwin's statement to the house of commons was:

"The Trades Union congress came to see me this morning and told me they had decided to call off the general strike forthwith. I said there would be an immediate effort by myself and my colleagues to bring a resumption of negotiations between the two parties in the mining dispute with a view to securing the earliest possible settlement. It is of the utmost importance that in a moment like this the whole British people do not look backward, but forward. We will resume our work in a spirit of co-operation, putting behind us all malice and all vindictiveness."

The understanding reached by Sir Herbert Samuel, chairman of the royal coal commission, and Chairman Arthur Pugh of the Trades Union congress was that the coal strike negotiations should be resumed, the government temporarily continuing the subsidy; that a national wage board should be established, the men being protected against unnecessary wage reductions and their jobs and welfare being safeguarded by various conditions. The miners' federation, however, did not approve of these terms and issued a manifesto rejecting them, pointing out that the proposals implied a reduction of wages to a large number of miners. Practically, the whole controversy now is where it was.

Much credit for bringing about the end of the general strike is given the archbishop of Canterbury, who proposed a plan of conciliation that was adopted by the Liberal party and approved by public opinion. The government realized that the public did not like the idea of a fight to a finish and unofficially aided the negotiations between Sir Herbert Samuel and Arthur Pugh.

The firmness with which the government combated the general strike and the way in which the British people supported its measures lead to the prediction that it will be a long time before labor again tries this weapon in the United Kingdom. Legal authorities there declared the general strike was illegal and that those inciting it or participating in it were not protected by the laws regulating the trades unions. One of the most effective steps taken by the government was the stoppage of delivery of financial contributions to the strikers from other countries.

TWICE last week the North pole was reached by the air route. First, Lieut. Commander Richard E. Byrd of the United States navy, with Floyd Bennett as his mechanician, flew from Kings Bay, Spitzbergen, to the pole in a giant Fokker plane. He saw no land near there and but one patch of open water, so he circled the pole three times and returned to the starting point without landing. That he did reach the top of the world was assured by his observations with especially devised apparatus. His achievement was accepted generally, though in some countries, notably Italy, it was declared still doubtful. At the spot where Byrd located the pole he dropped an American flag and an account of the flight, in a box.

Three days later Capt. Roald Amundsen, who had warmly congratulated Byrd on his success, started from Kings Bay in the huge dirigible Norge, directing his flight to Alaska. Early next morning his wireless messages said he had just passed over the pole, and 44 hours and 35 minutes after the departure the Norge reached Point Barrow, Alaska, headed for Nome. The radio dispatches from the airship said that when the pole was reached the Norge circled around the spot several times and the Norwegian, American and Italian flags were dropped, being so placed that they remained upright on the field of ice. America shares in the glory of Amundsen's feat, for his companion and financial backer is Lincoln Ellsworth. The Norge was built in Italy for the Italian navy and was commanded on the polar flight by Colonel Nobile of Italy.

At Point Barrow is the Detroit Arctic expedition, headed by Capt. George Hubert Wilkins. At last accounts its start toward the pole was still delayed by foggy weather.

POLAND, never in all history able to govern itself peaceably, was in the throes of a revolution last week. Marshal Joseph Pilsudski, who has been in opposition to the government since 1923, when he was eliminated by Premier Witos from the army, was at the head of the revolt, presumably being led to this step by the return of Witos to power and the appointment of Malczewski, one of Pilsudski's chief enemies, as minister of war. Several of the marshal's favorite regiments mutinied and marched on Warsaw, and at the time of writing they had possession of the city and were bombarding the Belvedere castle, to which President Wojciechowski and members of the Witos government had retreated. General Sikorski, former premier, was reported to have arrived at the capital with loyal troops and was fighting with the Pilsudski forces. The revolting marshal issued an ultimatum demanding the immediate resignation of Witos. Though a considerable part of the army and many provinces supported Pilsudski, the forces opposing him were so powerful that his ultimate success was doubtful.

GERMANY had her own troubles. The police discovered detailed plans for the establishment of a fascist dictatorship to be followed, presumably, by the restoration of the Hohenzollern dynasty to the throne. Raids were made on the residences and offices of the leaders and suppressed five Fascisti "athletic" societies, said to be military organizations with a membership of 50,000. The police admitted they did not have evidence warranting arrests, but the names of several industrial magnates and well-known royalists were dragged into the plot. In the home of Judge Class, chief of the pan-Germans, numerous letters from the former kaiser were confiscated, as well as the draft of a constitution to be proclaimed in case President von Hindenburg resigned and the Fascisti succeeded in seizing control of the army, which was to be rebuilt under protection of martial law.

Meanwhile Chancellor Luther was being forced to resign as the result of a personal defeat in the reichstag. A motion of censure proposed by the Democrats was adopted by a vote of 176 to 146. The Nationalists to the number of 103 refrained from voting. The chancellor's resignation was accepted but President von Hindenburg asked the rest of the cabinet to function until a new government could be formed. Luther's opponents accomplished his downfall by taking advantage of his insistence that the merchant flag, composed of the old monarchical colors, should be flown beside the republican flag on German embassies and consulates abroad. The Democrats, Socialists and Communists formed a combination against him. His friends blame the Nationalists for permitting his humiliating defeat.

PROSPER POULLET'S cabinet in Belgium resigned and King Albert asked M. Brunet, Socialist president of the chamber of deputies, to form a ministry solely for the purpose of solving the country's financial problems. Brunet was unable to get a ministry together.

BY VOTE of 69 to 13 the senate passed the Watson-Parker railway labor act exactly as it was adopted by the house last March. This measure puts out of existence the present federal railway labor board. It provides that railroads and their employees shall try to adjust differences by conference, and creates a board of mediation and conciliation to handle disputes that are not so settled. If the efforts of this board fail, provision is made for voluntary arbitration. In the event arbitration is not resorted to and a strike is threatened, the President may appoint an emergency board, which will investigate and report within 30 days. During that time, and for 30 days thereafter, the parties, under the bill, agree not to change the conditions out of which the dispute grew and this has been construed as a promise on the part of the employees not to strike in that period.

IN THE effort to gain enough supporters to pass the Haugen farm relief bill, the leading advocates of that measure announced proposed amendments under which the $375,000,000 revolving fund would be reduced to $175,000,000 for stabilization of cotton prices, $75,000,000 for similar operations in corn, wheat, cattle, swine and butter, and $25,000,000 for miscellaneous crops.

Another major amendment would make the equalization fee feature effective at once on all basic commodities except cotton, where it would be deferred for two years. A third would eliminate from the bill authority for the President to declare an embargo on the importation of farm products during an emergency. The federal farm board would be prohibited from declaring an emergency in any commodity until interested farm organizations have asked it by a referendum of their membership under a fourth amendment.

Backers of the Curtiss-Aswell and Tincher bills got together and began to frame a compromise measure with which they hoped to kill the Haugen bill.

ANOTHER big advance in the air mail was made Wednesday when twelve-hour service between Chicago and Dallas, Texas, and twenty-four-hour service between New York and the Southwest, by way of Chicago, became realities. A northern branch of the service connecting Chicago and Minneapolis will be opened June 7.

CHINA'S new premier, Dr. W. W. Yen, has inaugurated a regency cabinet composed mostly of men of foreign training. Alfred Sze, former minister to Washington, is foreign minister and Wellington Koo is minister of finance. This cabinet has the backing of Marshal Wu Pei-fu, but Marshal Chang, the Manchurian, remains silent. Americans in China were embarrassed when it was learned that Wu's troops had captured more than 10,000 rifles with ammunition, made in America and bearing the seal of the Russian imperial government with date of 1917. It is thought the soviets may have been selling arms bought from the United States during the World war.

SECRETARY SAUNDERS announces that President Coolidge will spend his summer vacation in the Adirondacks on the estate of Irwin R. Kirkwood, publisher of the Kansas City Star. The place is on Osgood lake and includes a large lodge with modern conveniences, tennis courts, boathouses, a bowling alley and a billiard cabin.

MINOR items in the week's news: French and Spanish have made considerable progress in their campaign against the Riffians.

Loriga and Gallarza, Spanish aviators, completed their flight from Madrid to Manila.

Cuba's big railway strike ended, President Machado agreeing to act as umpire.

Mexican government was contending with a rebellion in the state of Guerrero.

Alton B. Parker, Democratic candidate for the Presidency in 1904, died in New York.

Soviet Engineers to Study American Plants

Montreal.—A commission of four hydroelectric engineers from the Soviet union will tour the American continent for three months in preparation for the construction, on the Dnieper river in the Ukraine, of the largest hydroelectric development in Europe, gathering technical material. They will study the largest Canadian and American power plants from coast to coast.

The Dnieper project, which is a link in the huge superpower development planned by the Soviet government and includes large inland navigation and irrigation plans as well, will cost $75,000,000. The power plant will have an initial capacity of 210,000 kilowatts and an ultimate capacity of 455,000 kilowatts.

The plant, on the rapids above Zaporozhye (formerly Alexandrovsk), will feed power to a good part of the southern mining district of the Soviet union, which furnishes 75 per cent of the coal mined in the country, 70 per cent of the iron and a large proportion of the manganese, as well as heavily developed chemical and dye industries. By means of the development the Black sea will be linked with the German canal system via the Dnieper.

The detail initial costs of the enterprise are as follows: Railroad development, $16,000,000; lock system, $21,000,000; power house, $27,000,000; electrical transmission, $9,000,000; developing Samara river, $2,000,000.

ATWATER KENT IGNITION

for Fords

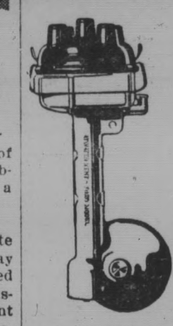
Don't give up your Ford

The Atwater Kent Type LA Ignition System for Fords is the best tonic for old or new.

It makes motors run smoother, more easier, and gives more power, and everlastingly dependable.

In general design, material and equipment it is the same as Atwater Kent Ignition Systems furnished as a standard equipment on many of America's finest cars, and as a fully made Atwater Kent Ignition Set.

It will last as long as your Ford, and when installed in less than an hour, and only $10.80.



Type LA Price $10.80

Including Coil and Fittings

ATWATER KENT MFG. CO.

A. Atwater Kent, President

Cobb Breaks Record on Every Hit

Ty Cobb, who topples over at least three baseball records every time he safely swings on the horsehide, stands a chance of setting new marks about a thousand times this season if he continues to play and holds the pace of his first start in the twenty-second year of his career in the majors.

The veteran pilot of the Detroit Americans, who holds more baseball records than anybody else in the game, started his first 1926 game with the Tigers, his previous appearances being as a pinch hitter, and he clinched his team's victory over Chicago by his willow work and incidentally chalked up a whole hatful of new records. His single, double and triple in four at-bats brought in four runs and Cobb scored twice himself.

When Ty singled he bettered three batting marks previously held by himself—those of the most hits in any league, the most singles ever made by one major leaguer and the most total bases for one major player, the latter record previously standing at 5,356. Then he doubled, passing his old record of 1,036 extra long bingles, rebreaking his totals for hits and the most bases and adding to another old Cobb record, that of the most extra bases on extended hits.

His three-bagger boosted five records—the four just reset by his double and his total for triples. When he crossed the plate two times he shattered still another, pushing up his total for most runs ever scored by one league player to 2,040.

The trick in it is that Cobb is so far out in front that he automatically boosts a series of top marks every time he hits. In addition, there exists the possibility of his besting his lifetime batting percentage and his numerous "season" and "consecutive" records during the season.

Evans Has Plan to Make Umpiring Easy

Umpiring made easy. If such a thing is possible, Billy Evans, famous American league umpire, believes he has the solution. Evans, who has served for 20 years in the American league and officiated in six world's series, has a new plan which he feels will greatly lighten the burdens of the baseball umpire.

It is a training school, a correspondence course in umpiring, that covers every situation that can come up on the ball field; clearly explains every rule and gives you the opinion of Evans as to how a ball game should be umpired.

Every ump anxious to advance in a profession that offers big things should write Billy Evans at 1200 West Third street, Cleveland, for the complete details of this novel plan.

LEONARD COMING BACK TO FIGHT

Drawing Power as a Movie Star Has Vanished.

Benny Leonard, retired lightweight champion of the world, is going to return to the ring. That has been said before, but this time the announcement comes from a source that is thoroughly reliable. Benny has heard the call of the turnstiles, which is a way of saying that he has heard the rattling of the money bags.

Benny is coming back as a welterweight, although he still insists that he could make 135 pounds—the lightweight limit—if it were absolutely necessary. Leonard's next fight will be with Mickey Walker and the title involved will be the welterweight championship of the world, which the Jersey boy holds.

Leonard retired, he said, because the business of professional pugilism

Benny Leonard.

got on his mother's nerves. She asked him to quit the ring, and he did, taking to the more lofty business of the footlights.

The real reason for Leonard's retirement, however, could probably be attributed to two things. One was that he found it exceedingly difficult if not physically impossible to make 135 pounds. The other was that he desired above everything else to retire from the ring undefeated. Leonard has said more than once that Jack McAuliffe, the retired and undefeated lightweight champion of the world, speaking of a generation ago, was a very wise man. This is what Benny had to say on that subject:

"There is no fighter in the world who won't meet his master some day or other if he sticks to the racket long enough. If I continued to fight as lightweight champion of the world it is certain that some boy would come along some day and get me. If I retire with the title I will always have an asset. I have got mine in a financial way. I don't need to worry. Why should I keep on until some kid comes along and smacks the old man on the chin?"

Finn Runner Will Make United States His Home

Albin Stenroos of Finland, who won the Olympic marathon race at Paris in 1924, has decided to remain in the United States as a member of the Finnish-American A. C.

Stenroos came to this country last winter after his countryman, Paavo Nurmi, had received ovations everywhere, but the long-distance man's successes were not numerous. In his first test, an hour's run at the Yankee stadium, New York, he bested the Boston star, Jimmy Hennigan, by only 50 yards.

A month later the Finn, who is forty years old, was beaten by Clarence Demar in a 15-mile race at Cambridge, Mass. Hennigan took his measure at 15 miles in Boston in August and Willie Goodwin of New York conquered him at three miles in a New Haven race.

Stenroos' last two appearances gave him victories, one at Cambridge, Mass., where he downed Demar in a 15-mile race, and again at Baltimore, February 28 this year, when he won the 10-mile modified marathon from a field of 55 runners, bettering the former record for the distance held by Verne Booth, former Johns Hopkins star, by 23 seconds.

Pirates' Great Offensive

Philadelphia and Cleveland played the fastest game in American league history last season. The full nine innings of the second tilt of a double-header on August 7 were reeled off in 65 minutes. The former record was 68 minutes to a game played between the White Sox and Athletics August 29, 1915. The Macks, oddly enough, figured in both. The National league speed mark is 51 minutes. It was set on September 28, 1919, by the Giants and Phillies.

Shows Much Ability

Three new members of the St. Louis Browns are showing unusual promise this spring and every member of the trio threatens to stick in the big show. Oscar Melillo (shown in the photograph) is perhaps the most talented youngster on the roster. He was obtained by the Browns from Milwaukee, where he fielded .973 and batted .294 last year.

BASEBALL SQUIBS

It looks like a soft summer for hot weather pitchers.

* * *

Ted Waring, veteran player, who has been dangerously ill in Kansas City, Mo., is reported greatly improved.

Alex Schleiker, an outfielder, with Dubuque of the Mississippi Valley league in 1924, has been signed by Waterloo of that league.

* * *

Monroe has turned Shortstop Toppino over to the Jackson club of the Tri-State league. Abie Reistenberg was signed to take his place.

* * *

Everett McGowan of St. Paul, widely known ice skater, has signed to play with the Cedar Rapids team of the Mississippi Valley league.

* * *

Pitcher Gene Calders, lefthander, has been purchased by Beaumont from the Mobile club of the Southern league. He was with Memphis and New Orleans before going to Mobile.

* * *

Third baseman Myers has been added to the Salisbury team of the Piedmont league. He was with Winston-Salem in 1922, and Danville in 1924.

* * *

Max Carey, outfielder of the world champion Pittsburgh team, is about the only real choke-hitter left in the major leagues. Now the demand is for bats with small handles and large ends to permit of greater leverage.

* * *

Beaumont fans passed the hat on April 19 and collected $300 for Bill Bailey, veteran Omaha pitcher, who has been critically ill in a Houston hospital. He began pitching for Beaumont twenty years ago and the fans have a warm spot for him.

* * *

Mr. Ruth may be improving, as the correspondents say, but a reference nowadays to the Yankee team means nine men.

* * *

Although Jack Quinn, now with Connie Mack, is said to be "playing for his fifth major league club," it should be borne in mind one of the five was the Red Sox.

* * *

The Mackmen won the preseason city title from the Phillies, and it is anticipated in the course of time that may be found to prove something.

Sporting Squibs

Mr. Dempsey says now he will fight when he gets ready, which again makes Mr. Dempsey the undisputed champion.

* * *

Members of the naval academy wrestling team have named Midshipman Howell J. Dyson of Alexandria, La., captain for next year.

* * *

The new Harvard coach, Horween, says every position on this year's eleven is still open. Opposing backs say this was also true of last year's eleven.

* * *

Well, it is almost nine years now since we went to war and sometimes one wonders whether Mr. Dempsey is still able to recall which end of a rivet is the head.

* * *

A Pennsylvania newspaper regrets that ex-Governor Tener did not enter the senatorial primary fight to make it a foursome. Tener would have gone well in a quartet.

* * *

About 45 tracks are now in use for flat racing in North America and five new tracks are being built. It is a conservative estimate that $400,000,000 annually is bet on races.

* * *

Luis Angel Firpo, satisfied with his victory over Erminio Spalla, is coming back to the United States this summer to make another campaign for the heavyweight championship.

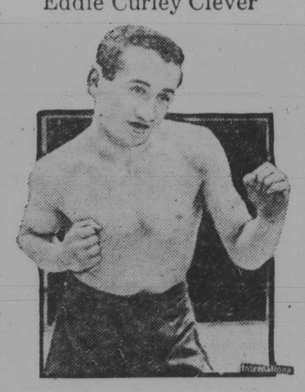
* * *

Throughout the United States there are no fewer than 10,000 football coaches and trainers in high schools and colleges who receive from $1,000 to $15,000 a year for their work.

* * *

Miss Glenna Collett, despite four golf reverses in recent tourney play in the South, will try for the British women's golf championship this year. The United States national champion is rounding into form and will no doubt give a good account of her skill abroad.

Eddie Curley Clever



Above photograph shows Eddie Curley of Roxbury, Mass., champion of New England in the 126-pound class, who romped home to victory in his first bout of his class in the national boxing championships held in Boston.

Stars in Three Sports

A record for individual competition in professional sport will be set if negotiations for the services of Lionel Connacher, defense man on the Pittsburgh Pirate pro hockey team, are completed. Should they eventuate, Connacher will be employed the year round in three different sports. He is already a professional hockey player, he has signed to play professional baseball for the Toronto Maple Leafs and has received an offer to play professional football.

RADIO

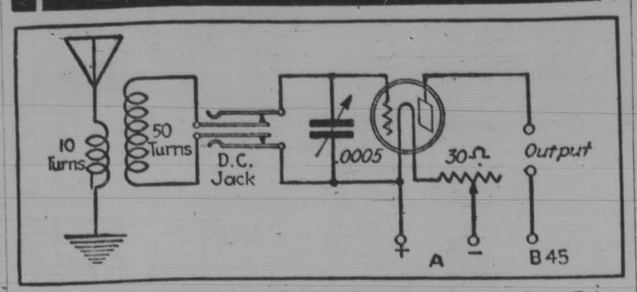


Diagram Showing How to Add a Stage of Radio Frequency to a Three-Tube Regenerative Set.

By C. J. KELLY
In New York Herald-Tribune.

More distance, greater selectivity and an all-around better set may be had by using a stage of tuned radio frequency with three-tube regenerative sets of the type utilizing a variable tickler coil to secure feedback. Although intended for this special type of receiver, the tuned radio-frequency stage may be used to advantage with almost any receiver that is not neutralized.

Aside from increasing the distance and selectivity of the set, the extra stage will permit the use of a loop antenna—a highly desirable feature these days when stations are only 15 kilocycles apart and selectivity is an all-important thing. As the loop has directional properties, interference from man-made static can practically be eliminated by operating the set with the loop in such a position that it picks up a minimum of interference.

Aerial for Best Results.

With an aerial and ground the set will be found to be superior in some ways to many five-tube radio-frequency sets. The combination of tuned radio frequency and regeneration will make for better distance records.

The radio-frequency stage may be built in a small cabinet and placed alongside of the three-tube set.

A double-circuit jack has been placed across the secondary tuning condenser to receive the plug to which the two leads from the loop are attached. By using this method it only will be necessary to insert the plug to use the loop, the double-circuit jack automatically disconnecting the secondary coil.

The loop will be found excellent for use where it is impossible to erect an aerial. The set can be installed in an automobile or motor boat and operated in a few moments, as it only is necessary to connect the battery leads and insert the plug.

The parts for the radio-frequency stage are all standard, and while most fans already have some of the parts around their workshop they may be obtained in any well-stocked parts store for very little.

List of Parts.

The following is a complete list of parts needed to construct the stage: One radio-frequency coil, one .0005 variable condenser; one panel, 7 by 10 inches; one baseboard 6 by 6 inches; one standard socket; one rheostat, 30 ohms; five binding posts, brackets and screws for coil and baseboard.

If the coil is to be purchased, any fixed coupler having enough inductance in the secondary to permit it to work over the broadcast wave lengths (from 200 to 600 meters) when tuned by a .0005-microfarad condenser can be used.

To wind the coil at home a composition or hard-rubber tube about six inches long and three and one-half inches in diameter is used, as it is a stock size and will be easy to obtain. A spool of No. 22 gauge double cotton-covered wire will be ample for winding the coils and connecting the set.

A 10-turn primary and a 50-turn secondary are wound on the same tube, separated by about one-quarter of an inch. Be careful to wind both coils in the same direction.

After the connections have been checked the rheostats on both the stage and the detector are turned on. Tuning will be the same as with any other set. The dials will differ slightly (usually a few degrees) because of the circuits not being matched, but both circuits will be in resonance when a station's carrier wave is received loudest.

Excessive squealing or whistling may be caused by reversed primary leads or too high plate voltage. Reduce the plate voltage from 45 to 22 volts. If this does not stop the squealing reverse the leads to the primary on the detector coil.

Strong Battery Voltage Necessary for Speaker

Many good sets fail to deliver sufficient volume on the loud speaker because they are not supplied with the necessary power to do so. Forty-five volts on the plates of the amplifiers will not deliver enough current to the magnets of the loud speaker to produce loud signals. Ninety volts will give much better results, and is certainly worth the additional cost. An extra grid bias is sometimes necessary with higher voltage, and this is connected with 4½-volt "C" battery, which is connected between the F post of the transformer and the filament. The negative terminal of the battery connects to F and the positive terminal to the filament.

FOREFATHERS OF RADIO

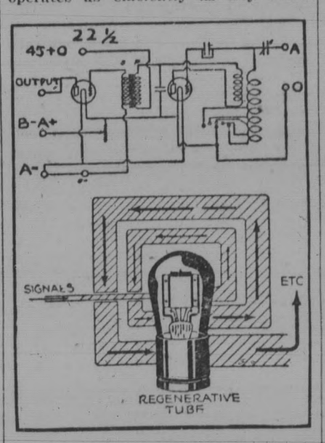
By GEORGE LEWIS
of The Crosley Radio Corporation.

While a student in the postgraduate school of Columbia university, New York city, Edwin Armstrong became interested in the development of receiving circuits for using the radio tube. Eight and nine-tube sets were coming into vogue, and it began to appear that soon the owner of a radio set would have to remodel his home in order to get it into one room. Armstrong invented a system whereby a single tube is used both as a detector

Edwin H. Armstrong.

and an amplifier, coils being arranged so that after the signal current has gone through the detector tube once, it is, in effect, sent back through that tube several times to be further amplified. The result is that one detector tube used in this way is equivalent to a detector tube and two or more amplifier tubes used in the old way. He called this system "regeneration."

Regenerative sets became popular very rapidly, since a regenerative set operates as efficiently as any other



type of set using several more tubes. They are still the most efficient type of set today. In fact, regeneration is the technical principle which has made it possible to manufacture the best of radio sets within the reach of the average man's pocketbook.

Cause of Vibrations in Set

Mechanical vibrations of the entire receiver may be the result of placing the speaker atop the receiver. This often causes ringing noises which start faintly and gradually increase until they reach such proportions that they drown out the signals. Such noises are the result of the microphonic action of the tube elements.

Very Simple Way to Stop That Whistling

In some cases a receiver of the tuned, radio-frequency type will cause trouble by oscillating (whistling) so badly, especially on the lower wave bands, that it is impossible to get decent reception of the broadcast programs.

In types of sets having the radio-frequency transformer coils mounted directly in back of and parallel to the variable condenser, the oscillations may be stopped by means of a very simple expedient. Just move the three coils slightly closer to their respective condensers and you will be surprised how quickly the unwelcome oscillations will be reduced or stopped.

This result is caused by a slight additional loss introduced in the coils due to the closer proximity of the coil to the metal end plate of the condenser. These losses are not large enough to make an appreciable difference in the operation of the receiver, and the owner or the service man should have no qualms in applying this method. If for some reason it is wished to make the receiver oscillate more, it is only necessary to move the coils further away.

Hunting for DX Stations

When the head phones are used, you are much more liable to tune in a distant signal than when using the loud speaker, as the faint signals are more easily distinguished, due to the reduction of outside noises. Head phones as a rule are more sensitive to weak signals, while loud speakers are constructed to handle volume and have a more coarse adjustment, which accounts for their not being so sensitive.

Distortion When Set Is Forced

You probably have noticed that local programs are wonderfully clear when you do not force your tubes to their extreme limits, even though a cheap speaker is being used. To force a radio receiver means distortion and the entire fault must not be placed on the broadcasting station or the manufacturer of the speaker.

Mrs. Duren's Quick Start

Mrs. Henrietta Ducan Duren, Boston woman lawyer, has the distinction of trying a case in court less than an hour after she was admitted to the Massachusetts bar.

Cuticura Soap for the Complexion. Nothing better than Cuticura Soap daily and Ointment now and then as needed to make the complexion clear, scalp clean and hands soft and white. Add to this the fascinating, fragrant Cuticura Talcum, and you have the Cuticura Toilet Trio.—Advertisement.

Diplomas They Can Read

Diplomas hereafter given Mercer college graduates will be written in English, the faculty of the Macon (Ga.) institution decided, acting on a petition from the students, who said that they wanted to read what was written on them. Previously they had been written in Latin.

Dr. Peery's "Dead Shot" is not a lozenge or syrup, but a real, old-fashioned medicine which cleans out Worms or Tapeworm with a single dose. 372 Pearl St., N. Y. Adv.

Elephant Her Pet

Daisy is the name of Honolulu's municipally owned elephant. Dorothy Mookini, age thirteen, is by right of proven prowess and by unanimous official consent, mistress of Daisy. She inherited her job when he father Haena Mookini, keeper of the menagerie at Kapiolani park, died several years ago. Every day it is her duty and pleasure to enter the cage where Daisy is chained and keep her pacified by petting while workmen clean. If she ceases petting for even an instant, Daisy starts after whoever else is in the pen.

Hondurasian

British Honduras, to which Baron Bliss has bequeathed 25,000 pounds per annum, is one of the most backward of colonies, and has a long-standing reputation for free-and-easy ways, even in the administration of justice. Some years ago, the story goes, a man whose wife eloped with another, shot his rival and was sentenced to a term of imprisonment for murder. A friend in Jamaica, hearing of his plight, went to Honduras to see what could be done. He found the prisoner, accompanied by a gaoler, transacting his ordinary business at his office. On the friend explaining that he hoped to obtain his release because he had acted within the "unwritten law," the criminal became violently excited and exclaimed: "But no, that is impossible, I have let my house."—Pierre Van Paassen, in Atlanta Constitution.

ATTRACTED BY BOOKLET

Read of Other Women Who Found Health

Brooklyn, New York.—Mrs. G. Hegmann of 35 Central Ave., was in a run-down condition and could not do her housework. She could not sleep at night. Her story is not an unusual one. Thousands of women find themselves in a similar condition at some time in their lives. "I found your advertisement in my letter box," wrote Mrs. Hegmann, "and took Lydia E. Pinkham's Vegetable Compound and got relief." Mrs. Hegmann also took Lydia E. Pinkham's Herb Medicine and Lydia E. Pinkham's Pills for Constipation, with good results. She says, "I am recommending your medicines to all I know who have symptoms the same as mine, and to others whom I think it will help. You may use my statement as a testimonial, and I will answer any letters sent to me by women who would like information regarding your medicines."

There are women in your state—perhaps in your town—who have written letters similar to this one telling how much Lydia E. Pinkham's Vegetable Compound has helped them.

The Pinkham Medicine Company, Lynn, Mass., will gladly furnish other women with these names upon request.

"BAYER ASPIRIN" PROVED SAFE

Take without Fear as Told in "Bayer" Package

BAYER

Does not affect the Heart

Unless you see the "Bayer Cross" on package or on tablets you are not getting the genuine Bayer Aspirin proved safe by millions and prescribed by physicians over twenty-five years for

Colds	Headache
Neuritis	Lumbago
Toothache	Rheumatism
Neuralgia	Pain, Pain

Each unbroken "Bayer" package contains proven directions. Handy boxes of twelve tablets cost few cents. Druggists also sell bottles of 24 and 100.

News of Menlo Park

Pleased With C. of C. Night

The members of the Menlo Park Chamber of Commerce are well pleased with the success of the chamber of commerce night at the New Menlo Theatre Wednesday night. The chamber took over the show house for that night and had charge of the program, which was very interesting and pleasing. Besides the picture "Drucilla With A Million," the following program was rendered: Stunts by the Boy Scouts; Phil Blanchard in his inimitable Italian Impersonations, Mrs. Carl Lindquist, nee Weeden, soprano; J. Kinne, tenor; Mrs. E. Gardener, elocutionist; E. E. Quaile and M. T. Montgomery, dialogue on work of the chamber of commerce. The house was crowded. Fred Nessler, the popular merchant, gave a package of peanuts to each one entering the foyer of the theatre. His liberality was appreciated by all. Another night is planned by the chamber in the near future.

Improvement Club Plan Picnic

Members of the Menlo Park Improvement Club are looking forward to their picnic at Searsville Lake on June 6 with anticipations of a good time and a pleasant outing. The whole town will be there

Pupils Give Recital

Piano pupils of E. Royal Flint of Palo Alto gave recitals Thursday evening and last night in Palo Alto Women's clubhouse. Families and friends of the pupils were present. Those taking part in the recital from Menlo Park were Carmel OK'eefe, Eva Enten, Leona Candevan, Emily McCarthy, Mary Roach, Janes Frances Cook.

Plans For Swimming Pool

Plans for the building of a swimming pool at the local Veterans' hospital have been approved by the central Veterans' Bureau office at Washington, a majority of the $7000 necessary has been raised and construction during the summer is assured, it was announced today by Dr. F. C. Smith, executive officer at the hospital.

The pool will be built in conjunction with the $8000,000 summer building program under which wards for the housing of 325 additioinal patients will be constructed by the government. Bids for this work are now out and will be awarded in Washington the latter part of June. Work is expected to start early in July.

Morey Signs With Palo Alto Club

Johnny Morey, Menlo Park, whose playing in the outfield of the University of Santa Clara baseball team was one of the bright spots in the Broncho season just completed, will join the Palo Alto club Sunday, when Eddie Zwierlein's men take on the Blue Ribbon Ice-Crean nine from San Francisco.

Morey wore a Paly uniform in 1924 and 1925 but a leg injury last summer prevented him from finishing out the season. He is one of the fastest flychasers in this section of the state and in addition to fielding his position well, bats well over .350.

Jack Clothier, the big Menlo Park speedball pitcher who so favorably impressed a large El Camino Park crowd in last Sunday's game with the Oakland Garage, will again be on the mound for Palo Alto.

A Guest From Boston

Mrs. W. E. Buckley is here from Boston, Mass., on a visit to her brother-in-law, David Buckley. Mrs. Buckley is delighted with California and particularly Menlo Park. She intends to spend a portion of the summer in the state. She is wealthy and is making a tour of the United States.

Announces Engagement

The engagement of Miss Lorene Schenkel, one of Menlo's beauties, and Stephen James Gilbert has been announced. The wedding will be an affair of the early part of June. The young couple plan to reside in San Francisco. Owing to the recent death of Mr. Gilbert's mother, the marriage will be a quiet affair. Sunday evening last Mrs. Phil Blanchard, sister of the prospective bride, gave her a miscellaneous shower at her home. Miss Schenkel was the recipient of numerous articles to be used in the new home that Mr. Gilbert is building in the city for his bride. The young couple are popular. They are receiving the congratulations of their many friends.

Johnny Hines in "Live Wire."

Tonight and tomorrow night there will be two shows in the New Menlo Theatre, the first beginning at 7:15 o'clock. This evening the main picture will be "Live Wire," featured by Johnny Hines. Kinograms weekly and a wrestling special, featuring Strangler Lewies, the world's champion wrestler. Tomorrow night, "Let's Get Married" will be on the screen with "On Edge," as a comedy. Monday night, "The Torrent," a big special that all should see will be presented. This is a beautiful love story worth while seeing. "Behind the Front" will be here on June 9 and 10. No one should miss it.

A New Dentist

Dr. J. Ross Hardy, an experienced dentist from Hollister, has leased the upper story of the Artino building on the highway and will establish modern denial parlor for the practice of his profession. There is a profitable field here for a dentist and we bespeak success for Dr. Hardy.

Appointed Registrar

Miss Ethel O'Keefe has been appointed registrar of the Junior High School at San Mateo and will begin her work at the opening of the college for the fall term. Miss O'Keefe is a Stanford graduate. Her sister, Miss Marcella O'Keefe will graduate from that institution cum laude next month.

Rummage Sale A Success

The rummage sale under the auspices of the ladies of Trinity Episcopal church held this week in the Menlo Park hotel was a financial success. Over $500 was netted in the sale, thanks to the untiring efforts of the ladies who put forth their best efforts on this occasion.

S. P. Has Large Crew Here

The Southern Pacific Railroad Company has ten cars on the siding here for the accommodation of a crew of men who are at work improving the Atherton depot. The grounds about the station are to be improved, curbing is to be put down and streets improved. It will take fifteen days to complete the work planned by the company.

J. T. Cooper Erect New House

Jay T. Cooper is erecting a neat eight-room house on his property on Glenwood avenue. It is to be Dutch Colonial style of architecture with many unique appointments. It is to be equipped through out with electrical appliances and is known in the language of the electrical trade as a "gold seal house," in that the heating and lighting will be by electricity. The building is to be the first in Menlo Park to use electricity exclusively.

Denis Merz Being Congratulated

Denis Merz, the local poet, is receiving the congratulations of numerous admirers of his pretty gardens around the flag station at Ravenswood road crossing. Those in passing stop and admire the fragrant beautiful blooms planted and cared for by the poet.

Moves to Commodious Quarters

E. J. McLaughlin this week moved into his new and commodious quarters in the Mercantile Trust Company's building. The rooms he vacated in the Coxin block have been taken by F. Bauderman, agent for the San Francisco newspapers. The quarters are large than the one he moved from in the adjoining building.

Who Will Take The Auto?

The North Palo Alto residents are holding a carnival this week in the five-acre tract on the corner of Willow road and the Middlefield road. They are raising funds for the construction of a club house at North Palo Alto. The carnival will be in full blast this evening, the closing night, an automobile is to be given away. Who will take it. Watch for the winning number.

Returns From Marysville

Mr. and Mrs. Harry Weeden have returned from a ten days' vacation spent with Mrs. Weeden's sister, Mrs. Thomas of Marysville.

School To Dispose of Land

The trustees of Ravenswood school district, it is said, are about to dispose of the parcel of land formerly occupied by the school building but vacant for many years That district is growing so rapidly that it will be only a short ime when a branch school will have to be established there. The trustees should hold the property for future use. The land was given to the district by the late Coloney McKendry for school purposes.

Mothers' Club For St. Joseph's

A very enthusiastic meeting was held on Thursday afternoon to form a Mothers' Club for St. Josephs' School in connection with the National Council for Catholic Women. Mrs. Bernard Breeden, a former resident of Menlo Park, addressed the meeting and spoke on its aims and objects. The following were elected to act as officers for the next year. President, Mrs. C. T. Maloney; secretary-treasurer Mrs. J. H. Sullivan.

Opens Home In Atherton

Mr. and Mrs. Jas. Carroll, the former cashier in the tax collector's office in the city, have opened their attractive country home at Atherton. Their attractive daughter and nieces are also with them.

Celebrates Tenth Anniversary

Last Monday evening, May 24th, Menlo Parlor, No. 211, N. D. G. W. celebrated its 10th anniversary with an elaborate banquet. The tables were beautifully decorated in flowers and candle holders of the color of the order, red, white and gold. The hall was decorated with the Bear and American flags At each plate was a beautifully hand painted place card sent from Yosemite Valley by Past President Agnes Quinn.

In the center of the table which seated 100 members was a large birthday cake gaily decorated with 10 candles. During th banquet the guests were entertained with songs and speeches, the singing of Isabel Weeden Linquist being especially enjoyed. After eating the guests all received a usful tin gift as a souviner of the evening.

During the meeting which followed two new members, Florance Carrol and Margaret Lintner were initiated. During the past year, Menlo Native Daughters have doubled their membership and now have two delegates to represent them at the Grand Parlor this year, which will vonvene at Sacramento. Catherline Derry and Jennie Michel were elected to this honor.

The Parlor plans many activities for the coming months.

Card Party Wednesday Evening

A big card party with 30 prizes will be given on next Wednesday evening by Menlo Parlor N. D. G. W. Admission 25c. Two door prizes.

Santa Clara High Closes

The Santa Clara College high school closed yesterday for the summer vacation. There was a large attendance at the commencement exercises held in the big auditorium. Many parents were present from Menlo Park and other peninsula towns. Farrell Buckley was awarded the red ribbon for his proficiency in Christian Doctorine, Cyril Byner was given the blue ribbon, he standing first in his class in elocution and English. Joseph Morey was also given a ribbon for mathematics. Harold O'Kefe was honorably mentioned for his standing in Christian Doctorine. These young men reside in Menlo Park.

NORTH FAIR OAKS TALKS ANNEXATION

A mass meeting was held last evening at North Fair Oaks at which residents of the district between the highway and Middlefield road met with the board of trustees of this city and the city engineer and the city attorney to discuss the question of annexation of that territory to Redwood City. A good number of the property owners of the district were present and from the general favorable comment it is not unlikely that this district may be before long petition to be joined to the incorporated territory.

The district in question lies contiguous to Redwood City and is dependent upon this city in a large degree for fire and police protection and in part for water. Annexation to Redwood City would guarantee them all of these services as well as sewers and other advantages of an incorporated city.

DOROTHY DARNIT

By Charles McM

SAVES TAX MONEY FOR THIS COUNTY

C. E. Skidmore of Berkeley, the tax expert, is doing splendid work for San Mateo county. Last year he was employed by the board of supervisors to check all deeds and sales of property to the state for delinquent taxes which do not show that they have been redeemed or cancelled by the state. The object of the research work of Mr. Skidmore is for the purpose of causing a public resale of property still owned by the State of California upon which no taxes are being collected. Upon the sale of such real estate at public auction it is again restored to the assessment rolls from which taxes accrue to the county. Under the agreement with the supervisors, Mr. Skidmore receives one half of all moneys he secures by his research. A short time ago he turned over to the county the sum of $8,079.24, getting half of that sum. Mr. Skidmore in his statement to the supervisors said he expected to recover three times that sum or $24,000 for the county. His research work carries him back to the organization of the county in 1857. The other day he secured a small sum of redemption on property delinquent in 1864. The property is lots 1 and 2, Western Addition to Redwood City, and assessed to George A. Heller, after whom Heller street was named. It was redeemed by the George H. Rice Abstract Co.

NOTICE OF FILING OF LIST OF ASSESSMENTS UNPAID

NOTICE IS HEREBY GIVEN, that Geo. A. Kneese, superintendent of streets of the town of San Carlos, did, on the 24th day of May, 1926, file with me, the undersigned, clerk of the town of San Carlos and ex-officio clerk of the board of trustees of said town, a complete list of assessments unpaid on account of the contract awarded on the 28th day of September, 1925, to Harvey E. Conner, for the construction of certain sewer work within said town, as in said resolution of intention No. 1, passed and adopted by said board on the 10th day of August, 1925, more specifically set forth ,to which resolution of intention reference is hereby expressly made for further particulars concerning the description and character of the work and the extent of the assessment district therefor, under and pursuant to the terms and provisions of the Improvement Act of 1911, as amended and then in effect, the Improvement Bond Act of 1915, as amended and then in effect, and said resolution of intention No. 1, and other resolutions, notices and proceedings of said boad of trustees, to which reference is hereby expressly made for further particulars, which resolution of intention, together with all subsequent resolutions, notices and warranet relating to said proceedings contained a notice as follows:

"Serial bonds to represent unpaid assessments and bear interest at the rate of seven (7%) per cent. per annum, will be issued hereunder in the manner provided by the Improvement Bond Act of 1915, as amended, the last installment of whic bonds shall mature nine (9) years from the second day of July next succeeding ten (10) months from their date."

NOTICE IS HEREBY FURTHER GIVEN, that said board hereby fixes the hour of eight (8:00) oclock p. m. of Monday, the 14th day of June, 1926, at the chambers of said oad, to-wit: the School House on Elm street between Cherry street and Cypress avenue, as the time and place when and where any and all persons interested, may appear before said board, and show cause, if any they have, why bonds should not be issued upon the security of the unpaid assessments, as shown by said list.

Dated this 26th day of May, 1926.

JULIUS M. EDLING,
Clerk of the town of San Carlos and ex-officio clerk of the board of trustees of said town.
